

Department initiated Amendment

Part V Division 3 of the *Environmental Protection Act 1986*

Licence Number	L4414/1968/12
Licence Holder	Hanson Construction Materials Pty Ltd
ACN	009 679 734
File Number	APP-0029557
Premises	Herne Hill/Red Hill Quarry 945 Toodyay Road RED HILL WA 6056 Being Lot 11 on Plan 3047 as defined by the map in Schedule 1
Date of Report	26 August 2025
Decision	Revised licence granted

1. Decision summary

The Delegated Officer has determined to make amendments to Licence L4414/1968/12. The amendments are administrative in nature therefore they do not alter the risk profile of the Premises, providing that activities, emissions and receptors as stated in existing approvals remain unchanged.

This Amendment Report documents the amendments made pursuant to section 59 and 59(B) of the *Environmental Protection Act 1986* (EP Act).

The Decision Report for the Existing Licence will remain on the department's website for future reference and will act as a record of the department's decision making.

1.1 Regulatory framework

In amending the licence, the department has considered and given due regard to its Regulatory Framework and relevant policy documents which are available at <https://dwer.wa.gov.au/regulatory-documents>.

1.2 Amendment summary

Licence L4414/1968/12 is held by Hanson Construction Materials Pty Ltd (Licence Holder) for the Herne Hill/Red Hill Quarry (the Premises), located at 945 Toodyay Road, Red Hill 6056.

The Premises relates to the categories 12 and 13 and the assessed production/design capacity under Schedule 1 of the *Environmental Protection Regulations 1987* (EP Regulations) which are defined in existing Licence L4414/1968/12.

In July 2020, the Government announced a package of regulatory reforms to streamline approval processes and to aid economic recovery post COVID-19. With these reforms, the CEO implemented an administrative renewal process to fast-track the renewals for licences determined to be lower risk.

This work has reduced timeframes of assessments, however, the CEO proposed to streamline the process further. Where identified as being appropriate to action, the department is extending the duration of licences that are due to expire up to 30 June 2026 (amend to extend). This licence has been identified as a licence suitable to process as an administrative extension to the licence duration.

On 19 June 2025, the department initiated an amendment to Licence L4414/1968/12. The amendment is limited to extending licence expiry date. No reassessment of risk has been undertaken at this time.

2. Consultation

The Licence Holder was provided with the draft Amendment Report on 21 July 2025. On 13 August 2025, the Licence Holder waived the comment period.

3. Summary of amendments

Table 1 below provides a summary of the proposed amendments and will act as a record of implemented changes. All proposed changes have been incorporated into the Revised licence as part of the amendment process.
