## 1. Decision summary

The Delegated Officer has determined to make amendments to Licence L9177/2018/1. The amendments are administrative in nature therefore they do not alter the risk profile of the Premises, providing that activities, emissions and receptors as stated in existing approvals remain unchanged.

This Amendment Report documents the amendments made pursuant to section 59 and 59(B) of the *Environmental Protection Act 1986* (EP Act).

The decision report for the Existing licence will remain on the department's website for future reference and will act as a record of the department's decision making.

## 2. Scope of assessment

### 2.1 Regulatory framework

In amending the licence, the department has considered and given due regard to its Regulatory Framework and relevant policy documents which are available at <https://dwer.wa.gov.au/regulatory-documents>.

### 2.2 Amendment summary

Licence L9177/2018/1 is held by Image Resources NL (Licence Holder) for the Boonanarring Mineral Sands Mine (the Premises), located on mining tenements M70/1194 and M70/1311.

The Premises relates to the category and the assessed design capacity under Schedule 1 of the *Environmental Protection Regulations 1987* (EP Regulations) which are defined in existing Licence L9177/2018/1.

In November 2020, the department initiated an amendment to Licence L9177/2018/1. The amendment is limited to correcting a typographical error in the legal description of the premises. M70/1311 was incorrectly listed as M70/1131. This error has now been correct on the amended licence.

## 3. Consultation

The Licence Holder was provided with the draft Amendment Report on 4 November 2020. No comments were received from the Licence Holder in the comment period.

## 4. Conclusion

Based on the assessment in this Amendment Report, the Delegated Officer has determined

that an amended licence will be granted, subject to conditions commensurate with the determined controls and necessary for administration and reporting requirements.
