Section E – Details of non-compliance with licence condition

The ISOS are currently stored on compacted ground. Each ISO is in a good condition, built to be suitable for shipping and manufactured in accordance with specifications outlined in the International Organisation for Standardisation.

Additional interim controls have been put in place at each site including:

- Daily site inspections
- ISOs have been relocated away from site boundary
- Installation of earthen bund to contain any spills if one occurs
- Additional emergency response training as required
- Spill response and adequate onsite spill equipment assessment.

Disposal pathways of the material are being investigated.

The 2 56kL tanks are planned to be removed from site.
