Lots 202 and 333 on Deposited Plan 111125,  
Gwindinup  
Certificate of Title Volume 1079 Folio 39  
Certificate of Title Volume 1079 Folio 40

Prescribed premises category description (Schedule 1, <i>Environmental Protection Regulations 1987</i> )	Assessed design capacity
Category 70: Crushing and screening etc. of material	49,999 tonnes per annual period

This works approval is granted to the works approval holder, subject to the attached conditions, on 25 October 2022, by:

---

**Manager, Resource Industries  
Regulatory Services**

an officer delegated under section 20 of the *Environmental Protection Act 1986* (WA)

## Interpretation

In this works approval:

- (a) the words 'including', 'includes' and 'include' in conditions mean "including but not limited to", and similar, as appropriate;
- (b) where any word or phrase is given a defined meaning, any other part of speech or other grammatical form of that word or phrase has a corresponding meaning;
- (c) where tables are used in a condition, each row in a table constitutes a separate condition;
- (d) any reference to an Australian or other standard, guideline, or code of practice in this works approval:
  - (i) if dated, refers to that particular version; and
  - (ii) if not dated, refers to the latest version and therefore may be subject to change over time;
- (e) unless specified otherwise, any reference to a section of an Act refers to that section of the EP Act; and
- (f) unless specified otherwise, all definitions are in accordance with the EP Act.

**NOTE:** This works approval requires specific conditions to be met but does not provide any implied authorisation for other emissions, discharges, or activities not specified in this works approval.

## Works approval conditions

The works approval holder must ensure that the following conditions are complied with:

### Construction phase

#### Infrastructure and equipment

1. The works approval holder must:
  - (a) construct and install the infrastructure and equipment;
  - (b) in accordance with the corresponding design and construction requirements; and
  - (c) at the corresponding infrastructure location; and
 as set out in Table 1.

**Table 1: Design and construction / installation requirements**

	Infrastructure	Installation requirements	Infrastructure location
1.	Mobile Crusher and Screener plant.	Crushing and screening plant to be positioned no less than 100m from the premises boundary <ul style="list-style-type: none"> <li>• Installation and setup of mobile plant</li> <li>• Fitted with dust suppression system to control dust</li> </ul>	Within the premises boundary (Figure 1)
2.	Water Cart	Installation and setup of mobile water cart available for dust control <ul style="list-style-type: none"> <li>• Minimum 15, 000 litre capacity</li> </ul>	
3.	3 detention ponds and spillway for stormwater management	Designed and constructed such that storm water and run off from stockpiling, material handling and screening and crushing areas is contained	

#### Compliance reporting

2. The works approval holder must within 30 calendar days of an item of infrastructure or equipment required by condition 1 being constructed and/or installed:
  - (a) undertake an audit of their compliance with the requirements of condition 1; and
  - (b) prepare and submit to the CEO an Environmental Compliance Report on that compliance.
3. The Environmental Compliance Report required by condition 2, must include as a minimum the following:
  - (a) certification by a suitably qualified and experienced Engineer that the items of infrastructure or component(s) thereof, as specified in condition 1, have been constructed in accordance with the relevant requirements specified in condition 1;

- (b) as constructed plans and a detailed site plan for each item of infrastructure or component of infrastructure specified in condition 1; and
- (c) be signed by a person authorised to represent the works approval holder and contains the printed name and position of that person.

## Time limited operations phase

### Commencement and duration

- 4. The works approval holder may only commence time limited operations for the infrastructure identified in condition 1 where the Environmental Compliance Report as required by condition 2 has been submitted by the works approval holder.
- 5. The works approval holder may conduct time limited operations of the infrastructure specified in condition Table 1 for a period not exceeding 120 calendar days from the day the works approval holder meets the requirements of condition 3 for that infrastructure.

### Compliance reporting

- 6. The works approval holder must submit to the CEO a report on the time limited operations within 30 calendar days of the completion date of time limited operations or 30 calendar days before the expiration date of the works approval, whichever is the sooner.
- 7. The works approval holder must ensure the report required by condition 6 includes a summary of the time limited operations, including timeframes and amount of material processed.

## Records and reporting (general)

- 8. The works approval holder must record the following information in relation to complaints received by the works approval holder (whether received directly from a complainant or forwarded to them by the Department or another party) about any alleged emissions from the premises:
  - (a) the name and contact details of the complainant, (if provided);
  - (b) the time and date of the complaint;
  - (c) the complete details of the complaint and any other concerns or other issues raised; and
  - (d) the complete details and dates of any action taken by the works approval holder to investigate or respond to any complaint.
- 9. The works approval holder must maintain accurate and auditable books including the following records, information, reports, and data required by this works approval:
  - (a) the works conducted in accordance with condition 1;
  - (b) any maintenance of infrastructure that is performed in the course of complying with condition 1; and
  - (c) complaints received under condition 8.
- 10. The books specified under condition 9 must:
  - (a) be legible;

- (b) if amended, be amended in such a way that the original version(s) and any subsequent amendments remain legible and are capable of retrieval;
- (c) be retained by the works approval holder for the duration of the works approval; and
- (d) be available to be produced to an inspector or the CEO as required.
