

Licence number	L9409/2023/1
Licence holder	Fortescue Ltd
ACN	002 594 872
Registered business address	Level 2 87 Adelaide Terrace EAST PERTH WA 6004
DWER file number	DER2023/000535
Duration	11/12/2023 to 10/12/2043
Date of issue	11/12/2023
Premises details	Hamersley Rail Mobile Crushing and Screening Facility Lease L1SA MARBLE BAR WA 6760 As defined by the coordinates in Schedule 2

Prescribed premises category description (Schedule 1, <i>Environmental Protection Regulations 1987</i>)	Assessed production capacity
Category 12: Screening, etc. of Material	1,500,000 tonnes per annual period

This licence is granted to the licence holder, subject to the attached conditions, on 11 December 2023, by:

A/MANAGER, RESOURCE INDUSTRIES

an officer delegated under section 20 of the *Environmental Protection Act 1986* (WA)

Licence history

Date	Reference number	Summary of changes
11/12/2023	L9409/2023/1	Licence granted

Interpretation

In this licence:

- (a) the words 'including', 'includes' and 'include' in conditions mean "including but not limited to", and similar, as appropriate;
- (b) where any word or phrase is given a defined meaning, any other part of speech or other grammatical form of that word or phrase has a corresponding meaning;
- (c) where tables are used in a condition, each row in a table constitutes a separate condition;
- (d) any reference to an Australian or other standard, guideline, or code of practice in this licence:
 - (i) if dated, refers to that particular version; and
 - (ii) if not dated, refers to the latest version and therefore may be subject to change over time;
- (e) unless specified otherwise, any reference to a section of an Act refers to that section of the EP Act; and
- (f) unless specified otherwise, all definitions are in accordance with the EP Act.

NOTE: This licence requires specific conditions to be met but does not provide any implied authorisation for other emissions, discharges, or activities not specified in this licence.

Licence conditions

The licence holder must ensure that the following conditions are complied with:

Infrastructure and equipment

- The licence holder must ensure that the site infrastructure and equipment listed in Table 1 and located at the corresponding infrastructure location is maintained and operated in accordance with the corresponding operational requirement set out in Table 1.

Table 1: Infrastructure and equipment requirements

Site infrastructure and equipment	Operational requirement	Infrastructure location
MCSF	<p>Total maximum design capacity of MCSF located within the premises shall not exceed 1.5 million tonnes per annual period.</p> <p>MCSF comprising of (as required):</p> <ul style="list-style-type: none"> Mobile Tracked Jaw crusher (maximum capacity 600 tonnes per hour) or equivalent, fitted with water sprays. Mobile Tracked Cone Crusher (maximum capacity of 400 tonnes per hour) or equivalent, fitted with water sprays. Mobile Tracked Double Deck Screener, fitted with water sprays. <p>Water sprays must be maintained and operated while material is being processed.</p>	Located as indicated by Site Layout map in Schedule 1, Figure 2.
Water carts/sprays	Available for purposes of dust suppression when any earth and materials moving, crushing, screening, or cartage activities are occurring and producing visible dust.	N/A
Stormwater Windrows and site grading	<p>Maintained so that that any stormwater, washdown and spillage water runoff from MCSF working areas is directed to a collection and settling sump.</p> <p>Maintained so that stormwater is directed away from work areas.</p>	N/A
Collection and settling sump	Maintained with capacity to store washdown and spillage water runoff from the MCSF working areas.	N/A

- The licence holder must ensure that the actions specified in Table 2 are carried out in accordance with the requirements specified in Table 2.

Table 2: Specified actions table

Action	Requirement
MCSF and stockpile area	Cease an activity causing visible dust lift-off where dust management measures have not prevented dust lift-off and there is a risk of the dust impacting the Great Northern Highway.

Records and reporting

3. The licence holder must record the following information in relation to complaints received by the licence holder (whether received directly from a complainant or forwarded to them by the Department or another party) about any alleged emissions from the premises:
 - (a) the name and contact details of the complainant, (if provided);
 - (b) the time and date of the complaint;
 - (c) the complete details of the complaint and any other concerns or other issues raised; and
 - (d) the complete details and dates of any action taken by the licence holder to investigate or respond to any complaint.
4. The licence holder must:
 - (a) undertake an audit of their compliance with the conditions of this licence during the preceding annual period; and
 - (b) prepare and submit to the CEO by no later than 90 days after the end of that annual period an Annual Audit Compliance Report in the approved form.
5. The licence holder must maintain accurate and auditable books including the following records, information, reports, and data required by this licence:
 - (a) the calculation of fees payable in respect of this licence;
 - (b) any maintenance of infrastructure that is performed in the course of complying with condition 1 of this licence;
 - (c) complaints received under condition 3 of this licence.
6. The books specified under condition 5 must:
 - (a) be legible;
 - (b) if amended, be amended in such a way that the original version(s) and any subsequent amendments remain legible and are capable of retrieval;
 - (c) be retained by the licence holder for the duration of the licence; and
 - (d) be available to be produced to an inspector or the CEO as required.

Notification

7. The licence holder must notify the CEO within 30 days of the reinstalment of the MCSF.

Definitions

In this licence, the terms in Table 3 have the meanings defined.

Table 3: Definitions

Term	Definition
