Hi,

I would like to comment with regard to the plastic bag ban which will commence in July this year.

I use my plastic bags several times, eg to take the shopping home, to carry things to and from our place to family, and then finally as a rubbish bag.

I dispose of my plastic bags (when they are no longer able to be used) correctly.

What is being done to ban the use of disposable nappies? I believe this is a more urgent matter than the plastic bags.

In my day, we used cloth nappies and washed them.

I would like your comments please.

Kind regards

Roslyn Golding
