**Subject:** Consultation draft - A guide to preparing revegetation plans for clearing permits

Hello

Thank you for providing the Department of Mines and Petroleum the opportunity to review the draft document "A Guide to Preparing Revegetation Plans for Clearing Permits".

DMP has reviewed the draft document and considers it to be a comprehensive and useful guideline document. DMP has no formal comments to make and does not wish to make a submission in relation to the draft document.

However, in reviewing the draft document, DMP has made the following observation:

The document refers to EPA Guidance Statement No. 51 which is no longer valid.

(We note that the replacement EPA guideline document was released after the commencement of the consultation period and realise that you are probably already aware of this issue. However, we thought we should draw it to your attention, just in case.)

Regards  
Lesley
