Amendment description

Ecolab Pty Ltd (Licence Holder) holds Licence L5230/1993/12 granted on 31 July 2014 (Existing Licence) for a chemical manufacturing facility at Lot 1 on Diagram 58692 Richardson St, Kwinana Beach (the Premises). The Licence Holder lodged an application to amend the Existing Licence on 3 May 2017 to extend its duration by 20 years.

The Licence Holder requested the duration extension on the basis that it is intending to lodge a separate licence amendment application relating to the construction of a new facility within the Premises to replace the existing facility.

L5230/1993/12	14/07/2017	Amendment Notice 1 – licence duration extension

Decision

The Existing Licence is due to expire on 5 August 2017. The Delegated Officer has taken account of DER's *Guidance Statement: Licence Duration* and extended the licence duration by three years. The duration extension provides time for the submission and assessment of an application to construct and operate a replacement facility within the Premises boundary. Whilst the Licence Holder sought a 20-year duration extension; the Delegated Officer limited the extension to three years consistent with works approval duration. A longer licence duration can be considered once the application for the replacement facility has been assessed.

Licence Holder's comments

The Licence Holder was provided with the draft Amendment Notice on 28 June 2017. The Licence Holder notified the Delegated Officer in writing on 7 July 2017 that it had no objection to the proposed amendment and waived the consultation period.

Amendment

1. The licence duration has been extended from *5 August 2017* to *5 August 2020*.
