Decision

DWER's *Guidance Statement on Licence Duration* provides for the granting of licences for up to 20 years duration. In 2016, DWER implemented this guidance statement by extending the durations for most licensed prescribed premises.

The expiry date for the Existing Licence was not extended as part of this project, as DWER had anticipated completing a review of the premises as part of the licence renewal in 2017.

DWER has not been able to undertake this review prior to the 2019 licence expiry. The expiry will therefore be extended by a further 12 months, which will enable both DWER and the Licence Holder to undertake an ordered and structured review of the premises in accordance with DWER's risk-based regulatory framework.

Amendment

1. The expiry date of the Existing Licence is amended from the date below:

Tuesday, 3 September 2019
