LICENSING AND APPROVALS

*an officer delegated under section 20 of the Environmental Protection Act 1986 (WA)*

## Amendment Notice

This Notice is issued under section 59 of the *Environmental Protection Act 1986* (EP Act) to amend the Licence issued under the EP Act for a prescribed premises as set out below. This notice of amendment is given under section 59B(9) of the EP Act.

## Amendment Description

Allday Construction WA Pty Ltd (the Licence Holder) was granted a licence by DER on 1 September 2016 for the operation of the Allday Construction solid waste and crushing facility with a capacity of 50,000 tonnes per annual period. The licence was granted until 11 October 2016 to align with the expiry date of the licence holder's lease agreement with the land owner.

On 29 September 2016 the lease for the premises was extended for a period of three years. On 6 October 2016, the Licence Holder requested an amendment to the licence to extend the duration of the licence to 11 October 2019 to align with the new lease agreement expiry date.

## Decision

The Delegated Officer has determined that an administrative amendment is to be made to extend the licence expiry date on page one of the licence.

A detailed risk-assessment is not required as a full review on the emissions associated with the Premises was undertaken when the licence was granted in September 2016 and the proposed controls and risks have not changed under this amendment.

The Delegated Officer is satisfied that evidence of the extended lease has been provided by the licence holder.

There are no other changes to the licence.

In granting this amendment the Delegated Officer has considered the following DER guidance statements:

- *Setting Conditions Division 3, Part V, Environmental Protection Act 1986, October 2015*
- *Licensing and works approvals process Part V Environmental Protection Act 1986, September 2015.*
