Amendment

The Chief Executive Officer (CEO) of the Department of Environment Regulation (DER) has amended the above works approval in accordance with section 59 of the *Environmental Protection Act 1986* as set out in this Amendment Notice.

Date signed: 15 December 2016

Steve Checker

MANAGER LICENSING (WASTE INDUSTRIES)

an officer delegated under section 20 of the Environmental Protection Act 1986 (WA)

Amendment Notice

This notice is issued under section 59 of the *Environmental Protection Act 1986* (EP Act) to amend the works approval issued under the EP Act for a prescribed premises as set out below. This notice of amendment is given under section 59B(9) of the EP Act.

Amendment Description

This Amendment Notice is the result of a proponent initiated administrative amendment to extend the expiry date of the Works Approval for two years and to delete the Category 89 Putrescible Landfill.

Decision

The current Works Approval is due to expire on 31 December 2016. The application details that construction of the premises will not be achieved before expiry due to unexpected delays. As such the Works Approval Holder has applied to extend the Works Approval expiry date by a duration of two years.

The Works Approval Holder has also requested removal of the Category 89 Putrescible Landfill originally approved for construction under this Works Approval as it is no longer required. The applicant has advised that their landfill constructed under Works Approval W5172/2012/1 will be sufficient for the waste disposal needs of this premises.

The Delegated Officer considers that the amendments applied for do not increase the risks to public health and the environment presented by the premises and that a detailed risk assessment is not required.
