## Decision

Section 63 of the EP Act prescribes that a works approval shall continue in force for such period as is specified in the works approval. Works Approval W5480/2013/1 is due to expire on 13 April 2019.

In determining to amend the duration of the works approval by 12 months, the following matters were considered by the Delegated Officer:

- The risks posed by emissions from the premises during commissioning have not changed since the works approval was granted; and
- An application for a licence for the operation of the infrastructure is expected to be submitted in Quarter 1 2019. Extending the Works Approval will allow sufficient time for DWER to assess the licence application.
