# Application form: Works Approval / Licence / Renewal / Amendment / Registration

Part V Division 3. Environmental Protection Act 1986 Environmental Protection Regulations 1987

### Part 1: Application type

- Completion of this form is a statutory requirement under s.54(1)(a) of the Environmental Protection Act 1986 (WA) (EP Act) for works approval applications; s.57(1)(a) for licence and licence renewal applications; s.59B(1)(a) for applications for an amendment; and under r.5B(2)(a) of the Environmental Protection Regulations 1987 (WA) (EP Regulations) for applications for registration of premises.
- The instructions set out in this application form are general in nature.
- A reference to 'you' in these instructions is a reference to the applicant.
- The information provided to you by the Department of Water and Environmental Regulation (DWER) in relation to making applications does not constitute legal advice. DWER recommends that you obtain independent legal advice.
- Applicants seeking further information relating to requirements under the EP Act and/or EP Regulations are directed to the Parliamentary Counsel's Office website (www.legislation.wa.gov.au). Schedule 1 of the EP Regulations contains the categories of prescribed premises.
- For prescribed premises where activities fall within more than one category, ALL applicable categories must be identified. This applies for existing prescribed premises seeking renewal or amendment, as well as new prescribed premises.
- The application form must be completed with all relevant information attached. Attachments can be combined and submitted as one or more consolidated documents if desired, provided it is clear which section of the application form the information / attachments relate to. Where attachments are submitted separately, avoid duplicating information. Ensure that any cross-references between the application form and the supporting document(s) are accurate.
- If an application form has been submitted which is incomplete or materially incorrect, the Chief Executive Officer of DWER (CEO) will decline to deal with the application and advise the applicant accordingly.
- On completing this application form, please submit it to DWEP in line with the instructions in Part 15 of

#### Part 2: Applicant details

- The applicant (the occupier of the premises) must be an individual(s), a company, body corporate, or public authority, but not a partnership, trust, or joint-venture name. Applications made by or on behalf of business names or unincorporated associations will not be accepted.
- If applying as an individual, your full legal name must be provided.
- If applying as a company, body corporate, or public authority, the full legal entity name must be inserted.
- Australian Company Number's (ACN) must be provided for all companies or body corporates.
- DWER prefers to send all correspondence electronically via email. We request that you consent to receiving all correspondence relating to instruments and notices under Part V of the EP Act (Part V documents) electronically via email, by indicating your consent in Section 2.3.
- Companies or body corporates making an application must nominate an authorised representative from within their organisation. Proof of authorisation must be submitted with the application (see Section 2.10). If you are applying as an individual, you are the representative.
- Details of a contact person must be provided for DWER enquiries in relation to your application. This contact person can be a consultant if authorised to represent the applicant. Written evidence of this authorisation must be provided.
- Details of the occupier of the premises must be provided. One of the options must be selected and if you have been asked to specify, please provide details. For example, if 'lease holder' has been selected,

2.1	Applicant name/s (full legal name/s):	Pilbara Ports Authority		
	The proposed holder of the works approval, licence or registration.			
	ACN (if applicable):			
2.2	Trading as (if applicable):	Pilbara Ports		
2.3	Authorised representative details:	Name		
	The person authorised to receive correspondence and Part V documents on behalf of the applicant under the EP Act.	Position		
	Where 'yes' is selected, all correspondence will be sent to you via email, to the email	Telephone		
	address provided in this section.  Where 'no' has been selected, Part V documents will be posted to you in hard copy to the postal / business address specified in Section 2.4, below. Other general correspondence may still be sent to you via email.	Email	- A	
		I consent to all written correspondence between myself (the	Yes	No
		applicant) and DWER, regarding the subject of this application, being exclusively via email, using the email address I have provided above.

#### Part 4: Proposed activities

#### INSTRUCTIONS:

- You must provide a description and the scope, size and scale of all prescribed activities of Schedule 1 to the EP Regulations including the maximum production or design capacity of each prescribed activity.
- If applying for a works approval or licence amendment involving the construction of new infrastructure, you must provide information on infrastructure to be constructed and how long construction is expected to take. You must confirm if commissioning is to occur and how long it will take.
- If applying for a works approval or licence amendment not involving the construction of new infrastructure, provide details of the proposed amendment.
- You must identify all emission sources on the premises map/s.
- You must also provide information on activities which directly relate to the prescribed premises category
  which have, or are likely to result in, an emission or discharge.
- If clearing activities are proposed provide a description and details. If a relevant exemption under Schedule 6 of the EP Act or r.5 of the Environmental Protection (Clearing of Native Vegetation) Regulations 2004 (WA) (Clearing Regulations) may apply, provide details.
- Note that in some cases, DWER may require that the clearing components of a works approval or licence (or amendment) application be submitted separately through the clearing permit application process.
   Refer to the <u>Procedure: Prescribed premises works approvals and licences</u> for further guidance.
- Please note that the requested information is critical to DWER's understanding of the proposed activities.
   The more accurate, specific, and complete the information provided in the application, the less uncertainty that DWER may identify in the application, therefore facilitating completion of the assessment in a more efficient and timely manner.

### 4.1 Prescribed premises infrastructure and equipment

In Table 4.1 (below), provide a list of all items of infrastructure and equipment within the boundary of the prescribed premises relevant to this application, and include the following details for each:

- relevant categories (if known) the categories of prescribed premises (as listed under Schedule 1
  of the EP Regulations) that relate to that infrastructure or equipment;
- site plan reference the location of that infrastructure or equipment (with reference to the site plan
  map or maps provided above in Section 3.4 and labelled as Attachment 2 e.g. use GPS
  coordinates or a clear description such as "labelled as [label on premises map] on Map A");
- is it critical containment infrastructure (CCI)? indicate if the identified infrastructure or
  equipment would be categorised as CCI. Refer to the <u>Guideline: Industry Regulation Guide to</u>
  <u>Licensing</u> for further information on CCI; and
- is environmental commissioning required? indicate if environmental commissioning is intended
  to be undertaken for that item of infrastructure or equipment. Refer to the <u>Guideline</u>: <u>Industry</u>
  Regulation <u>Guide to Licensing</u> for further information on environmental commissioning.

Add additional rows to Table 4.1 (below) as required.

#### Part 4: Proposed activities

#### Operations activities (for a licence):

Pilbara Ports holds a Part V Environmental Protection Act 1986 Licence L4432/1989/14 (L4432) for the export of distinct bulk granular materials, namely copper concentrate and spodumene concentrate from its Eastern Operations facility at the Port of Port Hedland. Exports of the licensed products at the facility occur over Berth 1 and 2 (PH1 & PH2).

Pilbara Ports is proposing to amend its operating Licence to remove the Dust Extraction System (DES) on Berth 1 Shiploader as a dust control measure. The DES is listed as a dust control in Schedule 3: Infrastructure and Equipment.

The DES was installed with the Shiploader on Berth 1 in 2001 to collect dust from three (3) transfer chutes (CV04/03, CV03/02 and CV02/01) on the boom conveyors prior to entering the telescopic chute. Ongoing maintenance has been undertaken on the DES over the years with a major refurbishment in 2013, where a number of components were replaced including a new compressor, platform and suction system. Since the refurbishment, further upgrades, regular maintenance and repairs have been implemented for the DES, however, Pilbara Ports' has continued to experience issues with the infrastructure and its performance.

In response to these issues, Pilbara Ports increased focus on other dust control measures and improvement opportunities within the Premises outload circuit, including the shiploader. Since 2013, Pilbara Ports has implemented three new or improved dust controls and four other significant infrastructure upgrades, which together have improved dust mitigation in the Premise's outload circuit. The implementation of the infrastructure and dust control upgrades, has resulted in the elimination of dust from the outload circuit by the time licensed products reach the shiploader. As a result, the DES on the shiploader is now considered a redundant dust control measure.

Further information on the new/upgraded dust control measures, as well as supporting information illustrating the effectiveness of the current dust controls since 2020 are detailed in Attachment 3B.

4.3	Estimated operating period of the project / premises (e.g. based on estimated infrastructure life):	No change		
4.4	Proposed date(s) for commencement of works (if applicable):	Not applicable		
4.5	Proposed date(s) for conclusion of works construction (if applicable):	Not applicable		
	This date should coincide with the submission to DWER of an Environmental Compliance Report(s) and/or a Critical Containment Infrastructure Report(s) as required.			
	Refer to the Guideline: Industry Regulation Guide to Licensing.			
4.6	Proposed date(s) for environmental commissioning of works (if applicable):	Not applicable		
	Refer to the Guideline: Industry Regulation Guide to Licensing.			
4.7	Proposed date/s for commencement of time limited operations under works approval (if applicable):	Not applicable		
	Refer to the Guideline: Industry Regulation Guide to Licensing.			
4.8	Maximum production or design capacity for each category applied for (based on infrastructure operating 24 hours a day, 7 days a week):	No change		
	Provide figures for all categories listed in Section 1.2.			
	Units of measurement must be the same as the units of measurement associated with the relevant category as identified in Schedule 1 of the EP Regulations.			
4.9	Estimated / actual throughput for each category applied for:  No change			
	Provide figures for all categories listed in Section 1.2.	5-10 C 10 C		
	Units of measurement must be the same as the units of measurement associated with the relevant category as identified in Schedule 1 of the EP Regulations.

applica     If you h	nave applied, or intend to apply, for other tion, you must provide relevant details.	approvals within DWER that may be relevant to this
Pre-applicat	tion scoping	
6.1 Hav	re you had any pre-application / pre- rral / scoping meetings with DWER arding any planned applications?	□ No     ☑ Yes      MS teams scoping meeting with DWER on 29 July 2025:     Attendance:
TOWNS SHOWN	ntal impact assessment (Part IV of the EP	Act)
the Sect prop have If DV appli prop Act t unde mad If a r pleas	re you referred or do you intend to refer proposal to the EPA?  ion 37B(1) of the EP Act defines a 'significant osal' as "a proposal likely, if implemented, to e a significant effect on the environment".  VER considers that the proposal in this ication is likely to constitute a 'significant osal', DWER is required under s.38(5) of the EP or refer the proposal to the EPA for assessment er Part IV, if such a referral has not already been e.  elevant Ministerial Statement already exists, se provide the MS number in the space ided.	□ Yes (referred) – reference (if known): [ ]      □ Yes – intend to refer (proposal is a 'significant proposal') □ Yes – intend to refer (proposal will require a s.45C amendment to the current Ministerial Statement): MS [ ]      □ No – a valid Ministerial Statement applies: MS [ ]      No – not a 'significant proposal'

Part 6	3: Other DWER approvals	
6.3	Have you applied or do you intend to apply for a native vegetation clearing permit?  In accordance with the <u>Guideline: Industry Regulation Guide to Licensing</u> and <u>Procedure: Native vegetation clearing permits</u> , where clearing of native vegetation:  • is exempt under Schedule 6 of the EP Act or the Environmental Protection (Clearing of Native Vegetation) Regulations 2004 (WA) (refer to <u>A quide to the exemptions and requilations for clearing native vegetation</u> )  • is being assessed by a relevant authority which would lead to an exemption under Schedule 6 of the EP Act, or  • has been referred under s.51DA of the EP Act and a determination made that a clearing permit is not required (refer to the <u>Guideline: Native vegetation clearing referrals</u> ).  the clearing will not be reassessed by DWER or be subject to any additional controls by DWER.  If the proposed clearing action is to be assessed in accordance with, or under, an <u>Environment Protection and Biodiversity Conservation Act</u> (Cth) (EPBC Act) accredited process, such as the assessment bilateral agreement, the clearing permit application <u>Form Annex C7 – Assessment bilateral agreement</u> must be completed and attached to your clearing permit application.	<ul> <li>Yes – clearing application reference (if known):         CPS [ ]</li> <li>Yes – a valid EP Act clearing permit already applies:         CPS [ ]</li> <li>No – this application includes clearing (please complete Sections 4.13 to 4.19 above)</li> <li>No – permit not required (no clearing of native vegetation)</li> <li>No – permit not required (clearing referral decision):         CPS [ ]</li> <li>No – an exemption applies (explain why):</li> </ul>
6.4	Have you applied or do you intend to apply for a Country Area Water Supply Act 1947 licence?  If a clearing exemption applies in a Country Area Water Supply Act 1947 (CAWS Act) controlled catchment, or if compensation has previously been paid to retain the subject vegetation, a CAWS Act clearing licence is required.  If yes, contact the relevant DWER regional office for a Form 1 Application for licence.  Map of CAWS Act controlled catchments	☐ Yes – application reference (if known): [ ☐ No – a valid licence applies: [ ☐ No – licence not required  ☐ No – licence not required
Wate	r licences and permits (Rights in Water and Irriga	ation Act 1914)
6.5	Have you applied, or do you intend to apply for:  1. a licence or amendment to a licence to take water (surface water or groundwater); or  2. a licence to construct wells (including bores and soaks); or  3. a permit or amendment to a permit to interfere with the bed and banks of a watercourse?  For further guidance on water licences and permits under the Rights in Water and Impation Act 1914, refer to the Procedure Water licences and permits.	☐ Yes –application reference (if known): [ ] ☐ No – a valid licence / permit applies: [ ] ☐ No – an exemption applies (explain why):  ☑ No – licence / permit not required

# Part 7: Other approvals and consultation

- Please provide copies of all relevant documentation indicated below, including any conditions, exclusions, or expiry dates.
- "Major Project" means:
  - A State Development Project, where the lead agency is the Department of Jobs, Tourism, Science and Innovation (including projects to which a State Agreement applies); or
  - A Level 2 or 3 proposal, as defined in the Department of Premier and Cabinet's <u>Lead Agency</u> <u>Framework</u>.

Part 7: Other approvals and consultation

		N/A	No	Yes

10.1	Sensitive land uses What is/are the distance(s) to the nearest sensitive land use(s)? A sensitive land use is a residence or other land use which may be affected by an emission or discharge associated with the proposed activities.	Closest residential longterm residence – 680m east of sheds and 970m east of shiploader.  Taplin Street (ambient monitoring site- in Residential zoning) – 2,000m northeast of sheds and 2,290m northeast of shiploader
10.2	Nearby environmentally sensitive receptors and aspects Identify in Table 10.2 (below):	

### Part 10: Siting and location

- all instances of environmentally sensitive receptors that are known or suspected to be present within, or within close proximity to, the proposed prescribed premises boundary;
- the nature of the sensitive receptors (e.g. type of Threatened Ecological Community, species or threatened flora or fauna, etc.);
- their actual or approximate known distance and direction from the premises boundary (at the closest point/s); and
- if applicable, what measures have been or will be taken to ensure that sensitive receptors are not
  adversely impacted by any emissions or discharges from the premises.

Refer to the Guideline: Environmental siting for further guidance.

Table 10.2: Nearby environmentally sensitive receptors and aspects

Type / classification	Description	Distance + direction to premises boundary	Proposed controls to prevent or mitigate adverse impacts (if applicable)
Environmen <mark>t</mark> ally Sensitive Areas <sup>1</sup>	Mangrove community	Located SW approx. 500 - 650m	No change in impact due to the proposed amendment
Threatened Ecological Communities			No change in impact due to the proposed amendment
Threatened and/or priority fauna			No change in impact due to the proposed amendment
Threatened and/or priority flora			No change in impact due to the proposed amendment
Aboriginal and other heritage sites <sup>2</sup>			No change in impact due to the proposed amendment
Public drinking water source areas 3			No change in impact due to the proposed amendment
Rivers, lakes, oceans, and other bodies of surface water, etc.	Port Hedland Harbour – Marine ecosystem (Moderate Level of ecological protection)	At/adjacent to premises	No change in impact due to the proposed amendment
Acid sulfate soils			No change in impact due to the proposed amendment
Other			

<sup>&</sup>lt;sup>1</sup> Environmentally Sensitive Areas are as declared under the *Environmental Protection (Environmentally Sensitive) Notice* 2005. Refer to DWER's website ("Environmentally Sensitive Areas") for further information.

### 10.3 Environmental siting context details

Provide further information including details on topography, climate, geology, soil type, hydrology, and hydrogeology at the premises.

No change in impact as to previously assessed under L4432/1989/14.

Attack	Attachments		N/A	Yes
10.4	Attachment 7: Siting and location	You must provide details and a map describing the siting and location of the premises, including identification of distances to sensitive land uses and/or any specified ecosystems.		×

Part 11: Submission of any other relevant information	As .	4W
Attachments	No	Yes

Refer to the <u>Department of Planning, Lands and Heritage website</u> for further information about Aboriginal heritage and other heritage sites.

Refer to <u>Water Quality Protection Note No.25: Land use compatibility tables for public drinking water source areas</u> for further information.

11.1	Attachment 8: Additional information	Applicants seeking to submit further information may include information labelled Attachment 8. If submitting multiple additional attachments, label them 8A, 8B, etc.	
	submitted	Where additional documentation is submitted, please specify the name of documents below.	
	List title of additional document(s) attached:	Attachment 8A – Summary of Dust Monitoring Data	 85

Attach	iments		N/A	Yes
12.1	Attachment 9: Category	DWER has developed category checklists to assist applicants with preparing their application.	$\boxtimes$	
	checklist(s)	These checklists are available on DWER's website.		
		The relevant category-specific checklist(s) must be completed and included with the application, labelled as Attachment 9. If attaching multiple category checklists, label them 9A, 9B, etc.		
		Do not select "N/A" unless:		
		<ul> <li>a relevant category checklist is not yet published on DWER's website, or</li> </ul>		
		<ul> <li>the application is for an amendment that does not propose changes to the method of operation, or change the inputs, outputs, infrastructure, equipment, emissions, or discharges of / from the premises.</li> </ul>		
		Note that that a category checklist(s) may still be required for renewal applications. You will be advised in your renewal notification letter (sent approximately twelve months before the licence expiry date) if you are required to provide the information identified in a category checklist.		
		Where a category checklist is submitted, please specify which checklist(s) in the space below.		
	List title(s) of category checklists attached:			112

#### 13.4 Proposed licence fee (new licences and licence renewals)

#### Detailed licence fee calculations

#### Part 1 Premises component (see r.5D and Part 1 of Schedule 4 of the EP Regulations)

The production or design capacity should be the maximum capacity of the premises. For most categories, the production or design capacity refers to an annual rate. The figure should be based on 24 hour operation for 365 days, unless there is another regulatory approval or technical reason that restricts operation.

The premises component fee applies to the category in Part 1, Schedule 4 incurring the higher or highest amount of fee units in accordance with r.5D(2) of the EP Regulations.

List all categories (insert additional rows as required). Use only the higher or highest amount of fee units to determine the Part 1 fee component.

Category	Production or design capacity	Fee units
Using the higher or high	est amount of fee units, Part 1 component subtot	al \$

# Part 2 Waste (see r.5D(1a)(b) and Part 2 of Schedule 4 of the EP Regulations)

If your premises includes one or more of the following categories specify any applicable Part 2 waste amounts. Do not include Part 3 waste components of these discharges in the below calculations.

Categories: 5, 6, 7, 8, 9, 12, 14, 44, 46, 53, 54A, 70, 80, or 85B

Part 2 waste means waste consisting of -

- (a) tailings; or
- (b) bitterns; or
- (c) water to allow mining of ore; or
- (d) flyash; or
- (e) waste water from a desalination plant.

If the premises does not fall into one of the categories listed above, or there are no applicable Part 2 waste amounts, the sub total for this section will be \$0.

Insert additional rows as required. Sum all Part 2 waste fees to determine the sub total.

Discharge quantity (tonnes/year)	Fee units	
Part 2 component subtotal	\$	

# Part 2 component subtotal

Part 3 Waste - Discharges to air, onto land, into waters (see Part 3 of Schedule 4 of the EP Regulations)

Choose the appropriate location of the discharge and enter the discharge amount(s) in the units specified in the EP Regulations. This should be the amount of waste expected to be discharged over the next 12 months, expressed in the units and averaging period applicable for that waste kind (for example, g/minute or kg/day). Amounts can be measured, calculated, or estimated and can be based on data acquired over the previous 12 months, but should be based on the maximum premises capacity and not the forecast operating hours.

Where there are discharges, all prescribed waste types must be considered in the fee calculation. If a specified waste type is not present in the discharge, this must be justified using an appropriate emission estimation technique (for example, sampling data, industry sector guidance notes, National Pollution Inventory guides and emission factors).

#### 13.6 Amendment fee (works approval or licence)

The fee prescribed for an application for an amendment to a works approval or licence is calculated in accordance with r.5BB(1)(a) of the EP Regulations:

- for a single category of prescribed premises to which the works approval or licence relates, by using the fee
  unit number corresponding to the prescribed premises category and relevant design capacity threshold in
  Schedule 4 Part 1 of the EP Regulations.
- for multiple categories of prescribed premises to which the works approval or licence relates, by using the highest fee unit number corresponding to the prescribed premises categories and design capacity threshold in Schedule 4 Part 1 of the EP Regulations.

### Part 14: Commercially sensitive or confidential information

#### NOTE:

Information submitted as part of this application will be made publicly available. If you wish to submit commercially sensitive or confidential information, please identify the information in Attachment 11, and include a written statement of reasons why you request each item of information be kept confidential.

Information submitted later in the application process may also be made publicly available at DWER's discretion. For any commercially sensitive or confidential information, please follow the same process as described above.

DWER will take reasonable steps to protect genuinely confidential or commercially sensitive information. However, please note that DWER cannot commit to redacting all personal information from all supporting documents. You are advised to ensure that all personal information, including signatures, are removed from supporting documents prior to submitting them to the department. Please note that all submitted information may be the subject of an application for release under the Freedom of Information Act 1992.

All information which you would propose to be exempt from public disclosure has been	Attached	N/A
separately placed in a redacted version of the application form and its supporting documentation. Note that this is in addition to the unredacted version(s) provided to DWER for its assessment. Grounds for claiming exemption in accordance with Schedule 1 to the Freedom of Information Act 1992 must be specified in Attachment 11 (located at the end of this form).		$\boxtimes$

Part 15: Submission of application	
INSTRUCTIONS:  Check one of the boxes below to nominate how you will submit your application.  Files larger than 50MB cannot be received via email by DWER. Files larger than 50MB can be sent via F Transfer. Alternatively, email DWER to make other arrangements.	ile
A full, signed, electronic copy of the application form including all attachments has been submitted via email to <a href="mailto:info@dwer.wa.gov.au">info@dwer.wa.gov.au</a> .  OR	
A signed, electronic copy of the application form has been submitted via email to <a href="info@dwer.wa.gov.au">info@dwer.wa.gov.au</a> and attachments have been submitted via File Transfer, or electronically by other means as arranged with DWER; OR	×
A full, signed hard copy has been sent to: APPLICATION SUBMISSIONS Department of Water and Environmental Regulation Locked Bag 10 Joondalup DC WA 6919	

#### Part 16: Declaration and signature

#### General

1 / We confirm and acknowledge that:

- the information contained in this application is true and correct;
- I / we have legal authority to sign on behalf of the applicant (where authorisation provided);
- . I / we have not altered the requirements and instructions set out in this application form;
- I / we have provided a valid email address in Section 2.3 for receipt of correspondence electronically via email
  from DWER in relation to this application;
- that successful delivery to my / our server constitutes receipt of correspondence sent electronically via email from DWER in relation to this application; and
- I / we have provided a valid postal and/or business address in Section 2.4 for the service of all Part V
  documents.
- giving or causing to be given information that to my knowledge is false or misleading is an offence under s.112 of the EP Act and may incur a penalty of up to \$100,000.

#### Publication

I / We confirm and acknowledge:

- this application (including all attachments apart from the sections identified in Attachment 11) is a public document and may be published;
- marine surveys provided in accordance with Part 5 will be published and used, for the purposes of the IMSA project, in accordance with your declaration made in the Metadata and Licensing Statement;
- · all necessary consents for the publication of information have been obtained from third parties;
- Information considered exempt from public disclosure has been noted by redaction of a separately provided
  copy of the completed application form and its supporting documentation (in accordance with Part 14), with
  reasons as to why the information should be exempt in accordance with the grounds specified in Schedule 1 to
  the Freedom of Information Act 1992 (WA) being provided in Attachment 11;
- subsequent information provided in relation to this application will be a public document and may be published
  unless written notice has been given to DWER by the applicant, at the time the information is provided, claiming
  that the information is considered exempt from public disclosure; and
- the decision to not publish information will be at the discretion of the CEO of DWER and will be made consistently with the provisions of the Freedom of Information Act 1992 (WA).
