# Application form: Works Approval / Licence / Renewal / Amendment / Registration

Part V Division 3, Environmental Protection Act 1986 Environmental Protection Regulations 1987

### Part 1: Application type

## INSTRUCTIONS:

- Completion of this form is a statutory requirement under s.54(1)(a) of the Environmental Protection Act 1986 (WA) (EP Act) for works approval applications; s.57(1)(a) for licence and licence renewal applications; s.59B(1)(a) for applications for an amendment; and under r.5B(2)(a) of the Environmental Protection Regulations 1987 (WA) (EP Regulations) for applications for registration of premises.
- The instructions set out in this application form are general in nature.
- . A reference to 'you' in these instructions is a reference to the applicant.
- The information provided to you by the Department of Water and Environmental Regulation (DWER) in relation to making applications does not constitute legal advice. DWER recommends that you obtain independent legal advice.
- Applicants seeking further information relating to requirements under the EP Act and/or EP Regulations
  are directed to the Parliamentary Counsel's Office website (<u>www.legislation.wa.gov.au</u>). Schedule 1 of the
  EP Regulations contains the categories of prescribed premises.
- For prescribed premises where activities fall within more than one category, ALL applicable categories
  must be identified. This applies for existing prescribed premises seeking renewal or amendment, as well
  as new prescribed premises.
- The application form must be completed with all relevant information attached. Attachments can be
  combined and submitted as one or more consolidated documents if desired, provided it is clear which
  section of the application form the information / attachments relate to. Where attachments are submitted
  separately, avoid duplicating information. Ensure that any cross-references between the application form
  and the supporting document(s) are accurate.
- If an application form has been submitted which is incomplete or materially incorrect, the Chief Executive
  Officer of DWER (CEO) will decline to deal with the application and advise the applicant accordingly.
- On completing this application form, please submit it to DWER in line with the instructions in Part 15 of the form.

th	e form.

## Part 2: Applicant details

### INSTRUCTIONS:

- The applicant (the occupier of the premises) must be an individual(s), a company, body corporate, or
  public authority, but not a partnership, trust, or joint-venture name. Applications made by or on behalf of
  business names or unincorporated associations will not be accepted.
- If applying as an individual, your full legal name must be provided.
- If applying as a company, body corporate, or public authority, the full legal entity name must be inserted.
- Australian Company Number's (ACN) must be provided for all companies or body corporates.
- DWER prefers to send all correspondence electronically via email. We request that you consent to
  receiving all correspondence relating to instruments and notices under Part V of the EP Act (Part V
  documents) electronically via email, by indicating your consent in Section 2.3.
- Companies or body corporates making an application must nominate an authorised representative from
  within their organisation. Proof of authorisation must be submitted with the application (see Section 2.10).
   If you are applying as an individual, you are the representative.
- Details of a contact person must be provided for DWER enquiries in relation to your application. This
  contact person can be a consultant if authorised to represent the applicant. Written evidence of this
  authorisation must be provided.
- Details of the occupier of the premises must be provided. One of the options must be selected and if you
  have been asked to specify, please provide details. For example, if 'lease holder' has been selected,
  please specify the type of lease (for example, pastoral lease, mining lease, or general lease) and provide a
  copy of the lease document(s). Note that contracts for sale of land will not be sufficient evidence of
  occupancy status.

2.1	Applicant name/s (full legal name/s):			
	The proposed holder of the works approval, licence or registration.	Paddington Gold Pty Limited		
	ACN (if applicable):			
2.2	Trading as (if applicable):	Paddington Gold Pty Ltd		
2.3	Authorised representative details:	Name		
	The person authorised to receive correspondence and Part V documents on behalf of the applicant under the EP Act.	Position		
	Where 'yes' is selected, all correspondence will be sent to you via email, to the email	Telephone		
	address provided in this section.	Email		
	Where 'no' has been selected, Part V documents	-	1000	188
	will be posted to you in hard copy to the postal / business address specified in Section 2.4, below. Other general correspondence may still be sent to you via email.	I consent to all written correspondence between myself (the applicant) and DWER, regarding the subject of this application, being exclusively via email, using the email address I have provided above.	Yes	No □
2.4	Registered office address, as registered with the Australian Securities and Investments Commission (ASIC):			
	This must be a physical address to which a Part V document may be delivered.			
2.5	Postal address for all other correspondence: If different from Section 2.4.

## Part 4: Proposed activities

#### INSTRUCTIONS:

- You must provide a description and the scope, size and scale of all prescribed activities of Schedule 1 to the EP Regulations including the maximum production or design capacity of each prescribed activity.
- If applying for a works approval or licence amendment involving the construction of new infrastructure, you must provide information on infrastructure to be constructed and how long construction is expected to take. You must confirm if commissioning is to occur and how long it will take.
- If applying for a works approval or licence amendment not involving the construction of new infrastructure, provide details of the proposed amendment.
- You must identify all emission sources on the premises map/s.
- You must also provide information on activities which directly relate to the prescribed premises category
  which have, or are likely to result in, an emission or discharge.
- If clearing activities are proposed provide a description and details. If a relevant exemption under Schedule 6 of the EP Act or r.5 of the Environmental Protection (Clearing of Native Vegetation) Regulations 2004 (WA) (Clearing Regulations) may apply, provide details.
- Note that in some cases, DWER may require that the clearing components of a works approval or licence (or amendment) application be submitted separately through the clearing permit application process.
   Refer to the Procedure: Prescribed premises works approvals and licences for further guidance.
- Please note that the requested information is critical to DWER's understanding of the proposed activities.
   The more accurate, specific, and complete the information provided in the application, the less uncertainty that DWER may identify in the application, therefore facilitating completion of the assessment in a more efficient and timely manner.

### 4.1 Prescribed premises infrastructure and equipment

In Table 4.1 (below), provide a list of all items of infrastructure and equipment within the boundary of the prescribed premises relevant to this application, and include the following details for each:

- relevant categories (if known) the categories of prescribed premises (as listed under Schedule 1
  of the EP Regulations) that relate to that infrastructure or equipment,
- site plan reference the location of that infrastructure or equipment (with reference to the site plan
  map or maps provided above in Section 3.4 and labelled as Attachment 2 e.g. use GPS
  coordinates or a clear description such as "labelled as [label on premises map] on Map A");
- is it critical containment infrastructure (CCI)? indicate if the identified infrastructure or
  equipment would be categorised as CCI. Refer to the <u>Guideline: Industry Regulation Guide to</u>
  <u>Licensing</u> for further information on CCI; and
- is environmental commissioning required? indicate if environmental commissioning is intended
  to be undertaken for that item of infrastructure or equipment. Refer to the <u>Guideline</u>, <u>Industry</u>
  <u>Regulation Guide to Licensing</u> for further information on environmental commissioning

Add additional rows to Table 4.1 (below) as required.

## Part 4: Proposed activities

## 4.2 Detailed description of proposed activities or proposed changes (if an amendment):

You must provide details of proposed activities relevant to this application within the boundary of the prescribed premises, identifying:

- scope, size, and scale of the project, including details as to production or design capacity (and/or frequency, if applicable);
- · key infrastructure and equipment;
- description of processes or operations (a process flow chart may be included as an attachment);
- · emission / discharge points;
- locations of waste storage or disposal
- · activities occurring during construction, environmental commissioning, and operation (if applicable).

If assessment and imposition of conditions to allow environmental commissioning to be undertaken are requested, please provide an environmental commissioning plan as Attachment 3A (see 4.11 below). Additional information relating to the proposed activities may be included in Attachment 3B (see 4.12 below).

### Construction activities (if applicable):

#### N/A

### Environmental commissioning activities (if applicable):

Refer to the Guideline: Industry Regulation Guide to Licensing for further guidance.

#### N/A

### Time limited operations activities (if applicable):

Different elements of the premises may require time limited operations to commence at different times. In these circumstances, please specify the infrastructure and/or equipment for which time limited operations authorisation is being applied for.

If time limited operations are expected to differ from future licensed operations, specify how and why this would be the case.

Refer to the Guideline: Industry Regulation Guide to Licensing for further guidance.

This Works Approval application is seeking permission to set up and use 1Mtpa Mobile Crushing and Screening Plant with an ore sorting attachment on M24/81, M24/82, M24/234, M24/265 and M24/266. The activity is associated with Cat. 5 and will require time-limited operations while the L8327/2008/2 is amended.

Please refer to Section 3 and Figure 2 of the attached Supporting Information document (Attachment 3B).

### Operations activities (for a licence):

### N/A

4.3	Estimated operating period of the project / premises (e.g. based on estimated infrastructure life):	Estimated operating period – 10 years
4.4	Proposed date(s) for commencement of works (if applicable):	As soon as Works Approval is granted.
4.5	Proposed date(s) for conclusion of works construction (if applicable):	
	This date should coincide with the submission to DWER of an Environmental Compliance Report(s) and/or a Critical Containment Infrastructure Report(s) as required. Refer to the Guideline: Industry Regulation Guide to Licensing.	N/A
4.6	Proposed date(s) for environmental commissioning of works (if applicable): Refer to the <u>Guideline</u> : <u>Industry</u> <u>Regulation Guide to Licensing</u> .	N/A
4.7	Proposed date/s for commencement of time limited operations under works approval (if applicable): Refer to the <u>Guideline Industry Regulation Guide to Licensing.</u>	Q4 2025

## Part 5: Index of Biodiversity and Marine Surveys for Assessments (IBSA and IMSA)

## INSTRUCTIONS:

- Biodiversity surveys should be submitted through the IBSA Submissions Portal at ibsasubmissions.dwer.wa.gov.au
- Biodiversity surveys submitted to support this application must meet the requirements of the EPA's
  Instructions for the preparation of data packages for the Index of Biodiversity Surveys for Assessments
  (IBSA).
- Marine surveys submitted to support this application must meet the requirements of the EPA's Instructions for the preparation of data packages for the Index of Marine Surveys for Assessments (IMSA).
- . If these requirements are not met, DWER will decline to deal with the application.

Attac	hments		N/A	Yes
5.1	Biodiversity surveys  Please provide the IBSA number(s) (or submission number(s) if IBSA number has not yet been issued) in the space provided.	All biodiversity surveys submitted with this application meet the requirements of the EPA's <u>Instructions for the preparation of data packages for the Index of Biodiversity Surveys for Assessments (IBSA)</u> .		
	Note that a submission number is not confirmation of acceptance of a biodiversity survey and is not the same.	Submission number(s)		
	as an IBSA number. IBSA numbers are only issued once a survey has been accepted. Once an IBSA number is issued, please notify the department.	IBSA number(s)		

### Part 5: Index of Biodiversity and Marine Surveys for Assessments (IBSA and IMSA) **INSTRUCTIONS:** Biodiversity surveys should be submitted through the IBSA Submissions Portal at ibsasubmissions.dwer.wa.gov.au Biodiversity surveys submitted to support this application must meet the requirements of the EPA's Instructions for the preparation of data packages for the Index of Biodiversity Surveys for Assessments (IBSA). Marine surveys submitted to support this application must meet the requirements of the EPA's Instructions for the preparation of data packages for the Index of Marine Surveys for Assessments (IMSA). If these requirements are not met, DWER will decline to deal with the application. 5.2 Attachment 4: All marine surveys submitted with this application meet the requirements of the EPA's instructions for the preparation of data Marine surveys X packages for the Index of Marine Surveys for Assessments (IMSA).

Part 6	i: Other DWER approvals	
• h	application, you must provide relevant details.	approvals within DWER that may be relevant to this osal to the Environmental Protection Authority (EPA),
Pre-a	pplication scoping	
6.1	Have you had any pre-application / pre- referral / scoping meetings with DWER regarding any planned applications?	
Envir	onmental impact assessment (Part IV of the EP	Act)
6.2	Have you referred or do you intend to refer the proposal to the EPA?  Section 37B(1) of the EP Act defines a 'significant proposal' as "a proposal likely, if implemented, to have a significant effect on the environment".  If DWER considers that the proposal in this application is likely to constitute a 'significant proposal', DWER is required under s.38(5) of the EP Act to refer the proposal to the EPA for assessment under Part IV, if such a referral has not already been made.  If a relevant Ministerial Statement already exists, please provide the MS number in the space provided.	□ Yes (referred) – reference (if known): [ ]      □ Yes – intend to refer (proposal is a 'significant proposal') □ Yes – intend to refer (proposal will require a s.45C amendment to the current Ministerial Statement): MS [ ]      □ No – a valid Ministerial Statement applies: MS [ ]      No – not a 'significant proposal'
Clear	ing of native vegetation (Part V Division 2 of the	EP Act and Country Area Water Supply Act 1947)
6.3	Have you applied or do you intend to apply for a native vegetation clearing permit?  In accordance with the Guideline: Industry Regulation Guide to Licensing and Procedure: Native vegetation clearing permits, where clearing of native vegetation:  • is exempt under Schedule 6 of the EP Act or the Environmental Protection (Clearing of Native Vegetation) Regulations 2004 (WA) (refer to A quide to the exemptions and regulations for clearing native vegetation)  • is being assessed by a relevant authority which would lead to an exemption under Schedule 6 of the EP Act, or  • has been referred under s.51DA of the EP Act and a determination made that a clearing permit is not required (refer to the Guideline: Native vegetation clearing referrals),  the clearing will not be reassessed by DWER or be subject to any additional controls by DWER.  If the proposed clearing action is to be assessed in accordance with, or under, an Environment Protection and Biodiversity Conservation Act (Cth) (EPBC Act) accredited process, such as the assessment bilateral agreement, the clearing permit application Form Annex CT - Assessment bilateral agreement must be completed and attached to your clearing permit application.	Yes – clearing application reference (if known):     CPS 8950/1      Yes – a valid EP Act clearing permit already applies:     CPS []      No – this application includes clearing (please complete Sections 4.13 to 4.19 above)      No – permit not required (no clearing of native vegetation)      No – permit not required (clearing referral decision)      No – an exemption applies (explain why):

71 m - 12 m	mponent	Proposed fee

## 13.4 Proposed licence fee (new licences and licence renewals)

## Detailed licence fee calculations

Part 1 Premises component (see r.5D and Part 1 of Schedule 4 of the EP Regulations)

The production or design capacity should be the maximum capacity of the premises. For most categories, the production or design capacity refers to an annual rate. The figure should be based on 24 hour operation for 365 days, unless there is another regulatory approval or technical reason that restricts operation.

The premises component fee applies to the category in Part 1, Schedule 4 incurring the higher or highest amount of fee units in accordance with r.5D(2) of the EP Regulations.

List all categories (insert additional rows as required). Use only the higher or highest amount of fee units to determine the Part 1 fee component.

Category	Production or design capacity	Fee units
Using the higher or high	est amount of fee units. Part 1 component subtr	s leto

Part 2 Waste (see r.5D(1a)(b) and Part 2 of Schedule 4 of the EP Regulations)

If your premises includes one or more of the following categories specify any applicable Part 2 waste amounts. Do not include Part 3 waste components of these discharges in the below calculations.

Categories: 5, 6, 7, 8, 9, 12, 14, 44, 46, 53, 54A, 70, 80, or 85B

Part 2 waste means waste consisting of -

- (a) tailings, or
- (b) bittems; or
- (c) water to allow mining of ore; or
- (d) flyash; or
- (e) waste water from a desalination plant.

If the premises does not fall into one of the categories listed above, or there are no applicable Part 2 waste amounts, the sub total for this section will be \$0.

Insert additional rows as required. Sum all Part 2 waste fees to determine the sub total

Discharge quantity (tonnes/year)	Fee units	
Part 2 component subtotal	\$	

Part 3 Waste - Discharges to air, onto land, into waters (see Part 3 of Schedule 4 of the EP Regulations)

Choose the appropriate location of the discharge and enter the discharge amount(s) in the units specified in the EP Regulations. This should be the amount of waste expected to be discharged over the next 12 months, expressed in the units and averaging period applicable for that waste kind (for example, g/minute or kg/day). Amounts can be measured, calculated, or estimated and can be based on data acquired over the previous 12 months, but should be based on the maximum premises capacity and not the forecast operating hours.

Where there are discharges, all prescribed waste types must be considered in the fee calculation. If a specified waste type is not present in the discharge, this must be justified using an appropriate emission estimation technique (for example, sampling data, industry sector guidance notes, National Pollution Inventory guides and emission factors).

Discharges to air			
Discharges to air	Discharge rate (g/min)	Discharges to air	Discharge rate (g/min)
Carbon monoxide		Nickel	
Oxides of nitrogen		Vanadium	
Sulphur oxides		Zinc	
Particulates (Total PM)		Vinyl chloride	
Volatile organic compounds		Hydrogen sulphide	
Inorganic fluoride		Benzene	
Pesticides		Carbon oxysulphide	
Aluminium		Carbon disulphide	
Arsenic		Acrylates	
Chromium		Beryllium	
Cobalt		Cadmium	
Copper		Mercury	
Lead		TDI (toluene-2, 4-di-iso-cyanate)	
Manganese		MDI (diphenyl-methane di-iso-cyanate)	
Molybdenum		Other waste	
Part 3 component subtotal		\$	
Discharges onto land or into wa	iters		Discharge rate
Liquid waste that can potentially deprive receiving waters of oxygen (for each kilogram discharged per day) —		(a) biochemical oxygen demand (in the absence of chemical oxygen demand limit)	
		(b) chemical oxygen demand (in the absence of total organic carbon limit)	
		(c) total organic carbon	
2. Bio-stimulants (for each kilogram discharged		(a) phosphorus	
per day) —		(b) total nitrogen	
Liquid waste that physically afters the characteristics of naturally occurring waters —		(a) total suspended solids (for each kilogram discharged per day)	
		(b) surfactants (for each kilogram discharged per day)	
		(c) colour alteration (for each platinum cobalt unit of colour above the ambient colour of the	
		waters in each megalitre discharged per day)	
		waters in each megalitre discharged per day)  (d) temperature alteration (for each 1°C above the ambient temperature of the waters in each megalitre discharged per day) —	
		waters in each megalitre discharged per day)  (d) temperature alteration (for each 1°C above the ambient temperature of the waters in each	

4. Waste that can potentially accumulate	(a) aluminium	
in the environment or living tissue (for each kilogram discharged per day) —	(b) arsenic	
	(c) cadmium	
	(d) chromium	
	(e) cobalt	
	(f) copper	
	(g) lead	
	(h) mercury	
	(i) molybdenum	
	(j) nickel	
	(k) vanadium	
	(I) zinc	
	(m)pesticides	2
	(n) fish tainting wastes	
	(o) manganese	
5. E. coli bacteria as indicator species (in	(a) 1,000 to 5,000 organisms per 100 ml	
each megalitre discharged per day) —	(b) 5,000 to 20,000 organisms per 100 ml	
	(c) more than 20,000 organisms per 100 ml	
6. Other waste (per kilogram discharged	(a) oil and grease	
per day) —	(b) total dissolved solids	
	(c) fluonde	
	(d) iron	
	(e) total residual chlorine	
	(f) other

Part 3 Component		
Total proposed licence fees:		\$
13.5 Prescribed fee for registration		
A fee of 24 units applies for an application for occupier of the premises holds a licence in reaccordance with r.5B(2)(c) of the EP Regulat	espect of the premises, in	ick to acknowledge)

## 13.6 Amendment fee (works approval or licence)

The fee prescribed for an application for an amendment to a works approval or licence is calculated in accordance with r.5BB(1)(a) of the EP Regulations:

- for a single category of prescribed premises to which the works approval or licence relates, by using the fee
  unit number corresponding to the prescribed premises category and relevant design capacity threshold in
  Schedule 4 Part 1 of the EP Regulations.
- for multiple categories of prescribed premises to which the works approval or licence relates, by using the
  highest fee unit number corresponding to the prescribed premises categories and design capacity threshold
  in Schedule 4 Part 1 of the EP Regulations.

13.7 Prescribed fee for clearing permit

In accordance with the Guideline Industry Regulation Guide to
Licensing and Procedure: Native vegetation clearing permits, where

Licensing and Procedure: Native vegetation clearing permits, where approval to clear native vegetation is sought as part of an application for a works approval or licence, DWER may elect to either jointly or separately determine the clearing component of the application. Where DWER separately determines the clearing component of an application, the application will be deemed to be an application for a clearing permit under s.51E of the EP Act and processed accordingly.

Note: If a clearing permit application has been separately submitted and accepted by DWER, a refund for the clearing permit application will not be provided where DWER determines to address clearing requirements as part of a related works approval application.

(Tick to acknowledge)

### 13.8 Information and data used to calculate proposed fees

The detailed calculations of fee components, including all information and data used for the calculations are to be provided as attachments to this application, labelled as **Attachment 10**, with an appropriate suffix (for example 10A, 10B etc.). Please specify the relevant attachment number in the space/s provided below.

Proposed fee for works approval	Attachment No	
Details for cost of works	Please refer to Section 9 of the Supporting Information document (Attachment 10A and 10B).	
Proposed fee for licence	Attachment No.	
Part 1: Premises	Please refer to Section 9 of the Supporting Information document (Attachment 10A and 10B).	
Part 2: Waste types		
Part 3: Discharges to air, onto land, into waters		

## Part 14: Commercially sensitive or confidential information

### NOTE:

Information submitted as part of this application will be made publicly available. If you wish to submit commercially sensitive or confidential information, please identify the information in Attachment 11, and include a written statement of reasons why you request each item of information be kept confidential.

Information submitted later in the application process may also be made publicly available at DWER's discretion. For any commercially sensitive or confidential information, please follow the same process as described above.

DWER will take reasonable steps to protect genuinely confidential or commercially sensitive information. However, please note that DWER cannot commit to redacting all personal information from all supporting documents. You are advised to ensure that all personal information, including signatures, are removed from supporting documents prior to submitting them to the department. Please note that all submitted information may be the subject of an application for release under the *Freedom of Information Act 1992*.

Part 14: Commercially sensitive or confidential information		
All information which you would propose to be exempt from public disclosure has been	Attached	N/A
separately placed in a redacted version of the application form and its supporting documentation. Note that this is in addition to the unredacted version(s) provided to DWER for its assessment. Grounds for claiming exemption in accordance with Schedule 1 to the Freedom of Information Act 1992 must be specified in Attachment 11 (located at the end of this form).		

Part 15: Submission of application	
INSTRUCTIONS: Check one of the boxes below to nominate how you will submit your application. Files larger than 50MB cannot be received via email by DWER. Files larger than 50MB can be sent via Files Transfer. Alternatively, email DWER to make other arrangements.	ile
A full, signed, electronic copy of the application form including all attachments has been submitted via email to <a href="mailto:info@dwer.wa.gov.au">info@dwer.wa.gov.au</a> ; OR	×
A signed, electronic copy of the application form has been submitted via email to <a href="mailto:info@dwer.wa.gov.au">info@dwer.wa.gov.au</a> and attachments have been submitted via File Transfer, or electronically by other means as arranged with DWER; OR	
A full, signed hard copy has been sent to: APPLICATION SUBMISSIONS Department of Water and Environmental Regulation Locked Bag 10 Joondalup DC WA 6919	

### Part 16: Declaration and signature

#### General

I / We confirm and acknowledge that:

- the information contained in this application is true and correct;
- I / we have legal authority to sign on behalf of the applicant (where authorisation provided);
- I / we have not altered the requirements and instructions set out in this application form;
- 1 / we have provided a valid email address in Section 2.3 for receipt of correspondence electronically via email from DWER in relation to this application;
- that successful delivery to my / our server constitutes receipt of correspondence sent electronically via email from DWER in relation to this application; and
- I / we have provided a valid postal and/or business address in Section 2.4 for the service of all Part V
  documents.
- giving or causing to be given information that to my knowledge is false or misleading is an offence under s.112 of the EP Act and may incur a penalty of up to \$100,000.

### Publication

1 / We confirm and acknowledge:

- this application (including all attachments apart from the sections identified in Attachment 11) is a public document and may be published;
- marine surveys provided in accordance with Part 5 will be published and used, for the purposes of the IMSA project, in accordance with your declaration made in the Metadata and Licensing Statement;
- all necessary consents for the publication of information have been obtained from third parties;
- information considered exempt from public disclosure has been noted by redaction of a separately provided copy of the completed application form and its supporting documentation (in accordance with Part 14), with reasons as to why the information should be exempt in accordance with the grounds specified in Schedule 1 to the Freedom of Information Act 1992 (WA) being provided in Attachment 11;
- subsequent information provided in relation to this application will be a public document and may be published
  unless written notice has been given to DWER by the applicant, at the time the information is provided, claiming
  that the information is considered exempt from public disclosure; and
- the decision to not publish information will be at the discretion of the CEO of DWER and will be made consistently with the provisions of the Freedom of Information Act 1992 (WA).
