

The site plan illustrates the layout of the RSA 10 area, which is a large rectangular pond. The plan shows the proposed walls of RSA 10, the residue mud delivery system, and the proposed sprinkler network. The sprinkler network is installed at a 60m x 60m triangular pattern. The plan also shows the underdrain collector piping, the decant pumping system, and the decant flows. The plan includes labels for RSA 10, RSA 7, ROCP 3, and various system components like TYP. SPRINKLER LATERALS, SPRINKLER SYSTEM EXTENSION FROM RSA8, and SPRINKLER HEADER VALVE STATION. A legend in the bottom right corner defines the symbols used.

LEGEND

- RSA10 PROPOSED WALLS
- RESIDUE MUD DELIVERY SYSTEM
- PROPOSED SPRINKLER LATERALS
- PROPOSED SPRINKLER HEADS
- PROPOSED UNDER DRAINAGE COLLECTOR PIPE
- PROPOSED UNDER DRAINAGE DRAIN COIL
- EXISTING COMPOSITE LINERS
- PROPOSED DECANT SYSTEMS
