## 1. Decision summary

Licence L6912/1997/11 is held by Shire of Broome (Licence Holder) for the Shire of Broome Refuse Site (the Premises), located at Reserve 40813, Lot 228 Buckleys Road Broome WA 6725.

This Amendment Report documents the assessment of potential risks to the environment and public health from proposed changes to the emissions and discharges during the operation of the Premises. As a result of this assessment, Revised Licence L6912/1997/11 has been granted.

The Revised Licence issued as a result of this amendment consolidates and supersedes the existing Licence previously granted in relation to the Premises. The Revised Licence has been granted in a new format with existing conditions being transferred, but not reassessed, to the new format.

## 2. Scope of assessment

### 2.1 Regulatory framework

In completing the assessment documented in this Amendment Report, the department has considered and given due regard to its Regulatory Framework and relevant policy documents which are available at <https://dwer.wa.gov.au/regulatory-documents>.

### 2.2 Application summary

On 1 September 2023, the Licence Holder submitted an application to the department to amend Licence L6912/1997/11 under section 59 and 59B of the *Environmental Protection Act 1986* (EP Act).

The State Government is delivering a statewide ban on e-waste disposal to landfill by 2024. The Department of Water and Environmental Regulation will administer \$10 million in grant funding over the next two years through a series of competitive grant rounds. The grants will support the ban by funding increased e-waste collection, storage and/or reuse including e-waste processing/recycling.

The Shire of Broome applied for Round 1 E-Waste Infrastructure Grants on 31 March 2023, under Stream 1- Waste Collection and Storage and/or Reuse. On 4 July 2023, the department notified the Shire of Broome that the grant application had been successful to build a new e-waste storage shed for Shire of Broome Refuse Site (L6912/1997/11).

This amendment is for the addition of Category 62 activities to the existing Licence to facilitate e-waste acceptance and storage, prior to transportation offsite for recycling. No changes to the aspects of the existing Licence relating to Category 64 and 61 have been requested by the Licence Holder.

Table 1 below outlines the proposed changes to the existing Licence.

**Table 1: Proposed throughput capacity changes**

Category	Current throughput capacity	Proposed throughput capacity	Description of proposed amendment
62	N/A	500 tonnes per annual period	Amendment for the construction of a new e-waste shed and allow to accept e-waste into the shed under category 62

## 2.3 Consolidation of Licence

As part of this amendment package the department has consolidated the licence by incorporating changes made under the Amendment Notices as summarised in Table 2.

**Table 2: Licences consolidated in this amendment**

Instrument	Issued	Summary of approval
L6912/1997/11	24/01/2020	Licence granted
L6912/1997/11	16/05/2022	Notice of Amendment of Licence Reporting Requirements to reduce the frequency of environmental reporting from annual to biennial, commencing 01/03/2024 and biennially thereafter.
L6912/1997/11	11/01/2024	Licence amendment to include category 62 to allow acceptance of e- waste at the premises.

The obligations of the Licence Holder have not changed in consolidating the licence. The department has not undertaken any additional risk assessment of the Premises related to previous Amendment Notices.

In consolidating the licence, the CEO has:

- updated the format and appearance of the Licence;
- revised licence condition's numbers, and removed any redundant conditions and realigned condition numbers for numerical consistency; and
- corrected clerical mistakes and unintentional errors.

The full consolidation of licence conditions as they relate to this Revised Licence are detailed in Section 5.1. Previously issued Amendment Notices will remain on the department's website for future reference and will act as a record of the department's decision making.

## 3. Risk assessment

The department assesses the risks of emissions from prescribed premises and identifies the potential source, pathway and impact to receptors in accordance with the *Guideline: Risk assessments* (DWER 2020).

To establish a Risk Event there must be an emission, a receptor which may be exposed to that emission through an identified actual or likely pathway, and a potential adverse effect to the receptor from exposure to that emission.

### 3.1 Source-pathways and receptors

#### 3.1.1 Emissions and controls

The key emissions and associated actual or likely pathway during premises construction and operation which have been considered in this Amendment Report are detailed Table 3 in below.

Table 3 also details the proposed control measures the Licence Holder has proposed to assist in controlling these emissions, where necessary.

**Table 3: Licence Holder controls**

Emission	Sources	Potential pathways	Proposed controls
Dust	Construction of e-waste storage shed	Air/windborne pathway	No additional controls were proposed. The existing Licence includes various controls for the management of dust and noise.
Noise	Receipt, handling, and storage of e-waste Vehicle movements	Air/windborne pathway	
Spills of hazardous waste	Receipt, handling, and storage of e-waste	Direct discharge to the land	E-waste acceptance is limit to 500 tonnes per annual period. The e-waste shed consists of 100 m <sup>2</sup> concrete hardstand area. E-waste will be stored inside two adjacent 40 ft sea containers.
Contaminated stormwater		Overland runoff	
Firewater			
Fire		Air/windborne pathway	No additional controls were proposed. The existing Licence includes various controls for the management of fire.

### 3.1.2 Receptors

In accordance with the *Guideline: Risk assessments* (DWER 2020), the Delegated Officer has excluded employees, visitors and contractors of the Licence Holder's from its assessment. Protection of these parties often involves different exposure risks and prevention strategies, and is provided for under other state legislation.

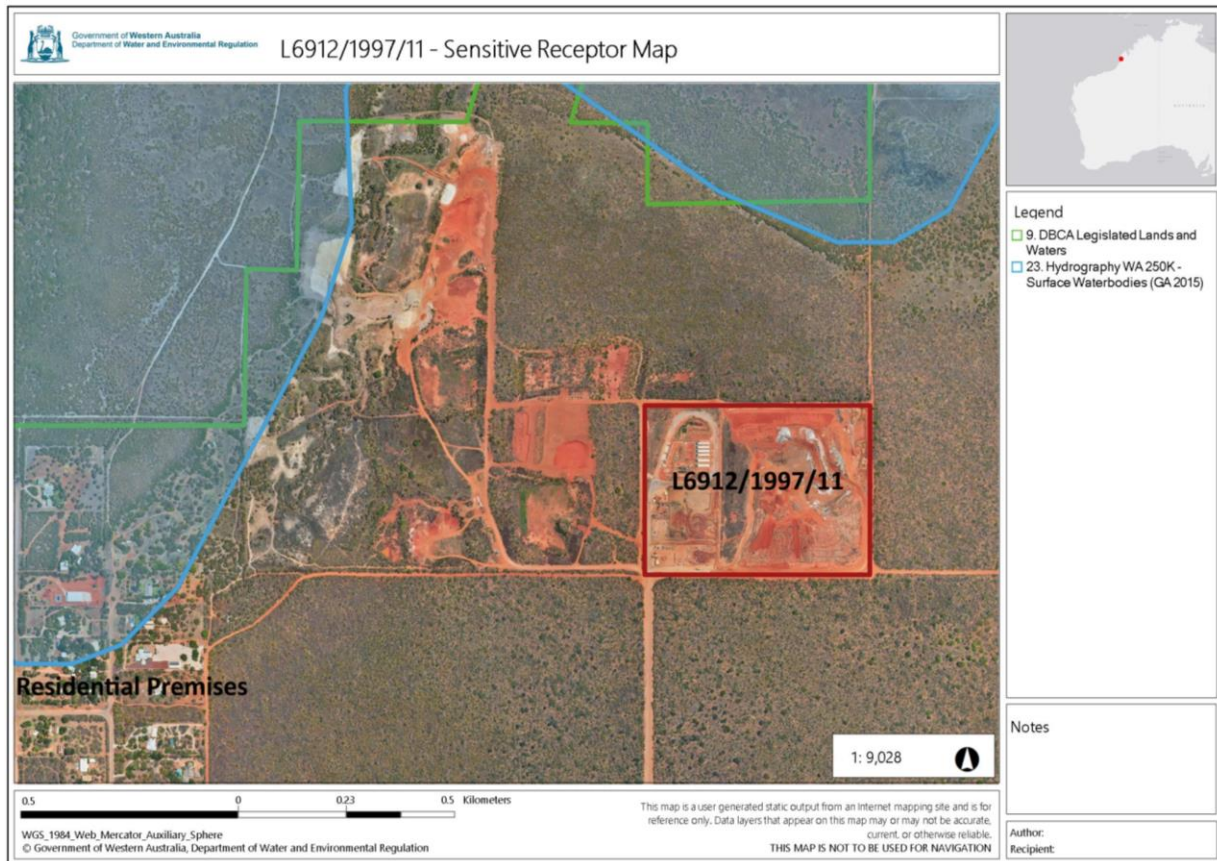

Table 4 below provides a summary of potential human and environmental receptors that may be impacted as a result of activities upon or emission and discharges from the prescribed premises (*Guideline: Environmental siting* (DWER 2020)).

**Table 4: Sensitive human and environmental receptors and distance from prescribed activity**

Human receptors	Distance from prescribed activity
Rural Residential Premises	920 m from the premises boundary and 1050 m southwest from e-waste shed. 530 m from premises boundary and 860 m southeast from e-waste shed.
Environmental receptors	Distance from prescribed activity
Priority Ecological Communities	Premises is located within a Priority 1 - Relict dune system dominated by extensive stands of Minyjuru (Mangarr) Sersalisia (formerly Pouteria) sericea. - COM_ID-Mangarr (Minyjuru) The northwestern corner of the premises contains a Priority 3

	ecological community.
Threatened Ecological Communities	Roebuck Bay mudflats- Species-rich faunal community of the intertidal mudflats of Roebuck Bay located 175 m north of the premises boundary
Threatened and Priority Flora	One threatened or priority flora is located approximately 2.2 km north of the premises boundary. One threatened or priority flora approximately 1.8 km south of the premises boundary.
Threatened Fauna	The following threatened fauna species are located approximately 1 km south of the premises boundary; <i>Actitis hypoleucos, Arenaria interpres, Calidris acuminata, Calidris alba, Calidris canutus, Calidris ferruginea, Calidris ruficollis, Calidris subminuta, Calidris tenuirostris, Charadrius mongolus, Charadrius veredus, Fregata ariel, Hirundo rustica, Hydroprogne caspia, Limosa lapponica, Limosa limosa, Numenius madagascariensis, Numenius minutus, Pandion cristatus, Pluvialis squatarola, Sterna hirundo, Sternula albifrons, Sula leucogaster, Tringa brevipes, Tringa glareola, Tringa nebularia, Tringa stagnatilis and Xenus cinereus</i>
DBCA legislated Lands	Land under Management Order Yawuru Native Title Holders Aboriginal Corporation located 400 m and 665 m north of the premises boundary. Yawuru Birragun Conservation Park located 1800 m east of the premises boundary.
Specified Ecosystems – Important wetlands	Roebuck Plains System consisting of the Roebuck Bay mudflats and Monsoon thickets are located 2 km southeast of the premises boundary
Surface waterbodies	Land subject to inundation is located 400 m north and 2 km southeast of the premises boundary.
Public Drinking Water Source Areas	The Priority 1 zone of the Broome Water Reserve is located 5 km northeast of the premises boundary
<i>Rights in Water and Irrigation (RIWI) Act – Groundwater Area</i>	Premises is located within the Broome Groundwater Area

**Figure 1: Distance to sensitive receptors**

### 3.2 Risk ratings

Risk ratings have been assessed in accordance with the *Guideline: Risk Assessments* (DWER 2020) for those emission sources which are proposed to change and takes into account potential source-pathway and receptor linkages as identified in Section 3.1. Where linkages are incomplete they have not been considered further in the risk assessment.

Where the Licence Holder has proposed mitigation measures/controls (as detailed in Section 3.1), these have been considered when determining the final risk rating. Where the Delegated Officer considers the Licence Holder's proposed controls to be critical to maintaining an acceptable level of risk, these will be incorporated into the licence as regulatory controls.

Additional regulatory controls may be imposed where the Licence Holder's controls are not deemed sufficient. Where this is the case the need for additional controls will be documented and justified in Table 5.

The Revised Licence L6912/1997/11 that accompanies this Amendment Report authorises emissions associated with the operation of the Premises.

The conditions in the Revised Licence have been determined in accordance with *Guidance Statement: Setting Conditions* (DER 2015).

**Table 5. Risk assessment of potential emissions and discharges from the Premises during construction and operation**

Risk Event					Risk rating <sup>1</sup> C = consequence L = likelihood	Licence Holder's controls sufficient?	Conditions <sup>2</sup> of licence	Justification for additional regulatory controls
Source/Activities	Potential emission	Potential pathways and impact	Receptors	Licence Holder's controls				
Construction								
Construction of new e-waste storage shed	Dust	Air/windborne pathway causing impacts to health and amenity	Rural residential premises ~ 530 m from premises boundary	Refer to Section 3.1	C = Slight L = Unlikely <b>Low Risk</b>	Y	Condition 18	The Delegated Officer considers dust and noise emissions associated with the construction of e-waste infrastructure can be adequately regulated by the general provisions of the EP Act.
Vehicle movement	Noise			Refer to Section 3.1	C = Slight L = Unlikely <b>Low Risk</b>	Y	N/A	
Operation								
Receipt, handling, and storage of e-waste	Dust	Air/windborne pathway causing impacts to health and amenity	Rural residential premises ~ 530 m from premises boundary	Refer to Section 3.1	C = Slight L = Unlikely <b>Low Risk</b>	Y	<b>Condition 4</b> Condition 5, 6 and 18,	The Delegated Officer considers dust and noise emissions associated with the acceptance and storage of e-waste can be adequately regulated by the general provisions of the EP Act.
Vehicle movement	Noise	Air/windborne pathway causing impacts to health and amenity		Refer to Section 3.1	C = Slight L = Unlikely <b>Low Risk</b>	Y	<b>Condition 4</b> Condition 5 and 6	

Risk Event					Risk rating <sup>1</sup>	Licence Holder's controls sufficient?	Conditions <sup>2</sup> of licence	Justification for additional regulatory controls
Source/Activities	Potential emission	Potential pathways and impact	Receptors	Licence Holder's controls	C = consequence L = likelihood <b>Medium Risk</b>			
	Fire	Air/windborne pathway causing impacts to health and amenity	Rural residential premises ~ 530 m from premises boundary Priority Ecological Communities within the premises	Refer to Section 3.1	C = Moderate L = Unlikely <b>Medium Risk</b>	Y	<b>Condition 1, 2, 3 and 4</b> Condition 5, 6, 14, 17,19 and 20	Taking into account the licence holder's infrastructure and management controls, Conditions 1, 2, 3 and 4 are added to the license. Those conditions are to minimize the risk of spillage, fire, contaminated storm water and fire water from the storage of e-waste on the premises.  Conditions 5 and 6 of the licence have been amended to allow for the activity to occur, and to set processing limits/requirements in line with the licence holder's commitments to reducing potential emissions.
	Spills of hazardous waste	Direct discharge to the land causing impacts on human health, soil and ground water quality	Surface waterbodies - 400m north of the premises boundary Underlying groundwater of the Broome Groundwater Area	Refer to Section 3.1	C = Minor L = Unlikely <b>Medium Risk</b>	Y	<b>Condition 1, 2, 3 and 4</b> Condition 5. 6, 17 and 23	
	Contaminated stormwater		DBCA land tenure located ~400 m north of the premises boundary	Refer to Section 3.1	C = Minor L = Unlikely <b>Medium Risk</b>	Y	<b>Condition 1, 2, 3 and 4</b> Condition 5, 6, 23, 25, 26, 27 and 31	
	Firewater		Threatened Ecological Communities~ 175 m north of the premises boundary. Threatened Fauna ~ 1000m south of the premises boundary.	Refer to Section 3.1	C = Minor L = Unlikely <b>Medium Risk</b>	Y	<b>Condition 1, 2, 3 and 4</b> Condition 5, 6, 19 and 20	

Note 1: Consequence ratings, likelihood ratings and risk descriptions are detailed in the *Guideline: Risk assessments* (DWER 2020).

Note 2: Proposed Licence Holder's controls are depicted by standard text. **Bold and underline text** depicts additional regulatory controls imposed by department.

## 4. Consultation

Table 6 provides a summary of the consultation undertaken by the department.

**Table 6: Consultation**

Consultation method	Comments received	Department response
Licence Holder was provided with the draft amendment on 08/12/2023	None received	N/A

## 5. Conclusion

Based on the assessment in this Amendment Report, the Delegated Officer has determined that a Revised Licence will be granted, subject to conditions commensurate with the determined controls and necessary for administration and reporting requirements.

### 5.1 Summary of amendments

Table 7 provides a summary of the proposed amendments and will act as record of implemented changes. All proposed changes have been incorporated into the Revised Licence as part of the amendment process.

**Table 7: Summary of licence amendments**

Revised licence condition	Existing condition	Conversion notes
Cover page	N/A	Added category 62 into the licence. Revised to current licensing format.
Licence history	N/A	Updated the licence history table
Interpretation section	N/A	Revised to current licensing format.
Condition 1 Table 1	N/A	New standard construction condition added to ensure the proposed infrastructure is built in accordance with the requirements listed in Table 1.
Condition 2	N/A	New standard construction condition to ensure DWER is notified once proposed works have been completed.
Condition 3	N/A	New standard construction condition to ensure all works are appropriately checked and signed off by a suitably qualified person once completed.
Condition 4 Table 2	Conditions 36, 37	Existing licence conditions 36 and 37 have been incorporated into row 1 of Table 2 in the current licensing format.  Row 2 of Table 2 has been added to the licence as new standard operational conditions for e-waste.
Condition 5 Table 3	Condition 1	Existing licence condition 1 has been incorporated into Table 3 as per current licensing format.

Revised licence condition	Existing condition	Conversion notes
	Condition 7(a)	<p>Existing licence condition 7(a) for acceptance specifications for Special waste type 1 has been incorporated into Table 3 as per current licensing format.</p> <p>Existing licence condition 1(g) for acceptance specifications for liquid wastes have been incorporated into Table 3 as per current licensing format.</p> <p>Rates of receipt for Category 64, Category 61 and Category 62 wastes have been incorporated into Table 3 as per current licensing format.</p> <p>Row 2 of Table 3 has been added to the licence to specify the acceptance of green waste, as previously approved under licence amendment granted on 03/11/2012.</p> <p>Row 8 of Table 3 has been added to permit the acceptance of contaminated waste, with associated acceptance specifications.</p> <p>Row 11 of Table 3 has been added to permit the acceptance of e-waste, with associated acceptance specifications, in accordance with this application.</p>
