

CEO-initiated amendment to licence

Part V Division 3 of the *Environmental Protection Act 1986*

Licence Number	L7417/2000/10
Licence Holder	Kettridges Pty Ltd
ACN	066 718 027
File Number	DER2014/000782-2
Premises	Kettridges Stockfeeds 6 Golding Cr PICTON EAST WA 6229 Being Lot 45 on Diagram 96132 as depicted in Schedule 1 of licence
Date of Report	27/03/2026
Decision	To grant a licence

1. Decision summary

The Delegated Officer has determined to make an amendment to licence L7417/2000/10. The amendment is administrative in nature therefore does not alter the risk profile of the premises, providing that activities, emissions and receptors as stated in existing approvals remain unchanged.

This Amendment Report documents the amendments made pursuant to section 59 and 59(B) of the *Environmental Protection Act 1986* (EP Act).

The decision report for the existing licence will remain on the department's website for future reference and will act as a record of the department's decision making.

2. Scope of assessment

2.1 Regulatory framework

In amending the licence, the department has considered and given due regard to its Regulatory Framework and relevant policy documents which are available at [DWER Regulatory documents | Western Australian Government \(www.wa.gov.au\)](http://www.wa.gov.au).

2.2 Amendment summary

Kettriges Pty Ltd operates animal feed manufacturing facility located in the Picton East industrial area, on the outskirts of Bunbury. The premises comprises hammer mills (for grinding), a mixer, pellet press and boiler (for the production of steam), which are used to produce up to 100,000 tonnes per year of edible pelletised stockfeed.

Approved design or throughput capacity under the Licence

Prescribed premises category description (Schedule 1, <i>Environmental Protection Regulations 1987</i>)	Assessed production / design capacity
Category 23: Animal feed manufacturing: premises (other than premises within category 15 or 16) on which animal food is manufactured or processed.	100,000 tonnes per annual period

3. Consultation

The draft licence and this report were provided to the licence holder on 9 March 2026.

4. Decision

Section 63 of the EP Act prescribes that a licence shall continue in force for such period as is specified in the licence. Licence L7417/2000/10 is due to expire on 31 March 2026. The delegated officer considers it appropriate to extend the licence duration by twenty years.

In determining to extend the duration of the licence by twenty years, the following matters were considered by the delegated officer:

- no complaints or compliance issues were received by the department in the past five years;
- an extension to the duration of the licence will not change the current risk profile of the premises, and the risks posed by ongoing emissions from the premises will continue to be subject to the existing licence conditions;

- *Guidance Statement: Licence duration* (2016) provides for licences to be issued for a term of up to 20 years; and
- in the event that risk issues arise in relation to the premises, the CEO may:
 - amend the licence conditions at any point; and
 - in the event of an alleged offence, exercise enforcement powers under the provisions of the EP Act.

5. Conclusion

5.1 Summary of amendments

Table 1 below provides a summary of the proposed amendments and will act as a record of implemented changes. All proposed changes have been incorporated into the Revised licence as part of the amendment process.
