The Delegated Officer has determined to renew to licence L9190/2019/1. The renewal is administrative in nature and therefore does not alter the risk profile of the Premises, providing that activities, emissions and receptors as stated in existing approvals remain unchanged. Administrative updates have been made to the licence only, including updates to format and appearance, correction of errors (spelling etc) and replacement of outdated hyperlinks and terminology.

The decision report for the existing licence will remain on the department's website for future reference and will act as a record of the department's decision making.
