Premises	<p>Lake Way Sulphate of Potash (SOP) Project Goldfields Highway WILUNA WA 6646</p> <p>Whole of mining leases M53/796, M53/797, M53/798, M53/123, M53/1109, M53/1102, M53/1104, M53/1106, M53/121, M53/1107, M53/1103, G53/25 and L53/214</p> <p>Part of mining leases M53/910, M53/253, M53/1105</p>
Date of Report	6 October 2025
Decision	Revised licence granted

1. Decision summary

The Delegated Officer has determined to make amendments to Licence L9208/2019/1. The amendments are administrative in nature therefore they do not alter the risk profile of the Premises, providing that activities, emissions and receptors as stated in existing approvals remain unchanged.

This Amendment Report documents the amendments made pursuant to section 59 and 59(B) of the *Environmental Protection Act 1986* (EP Act).

The Decision Report for the existing Licence L9208/2019/1 will remain on the department's website for future reference and will act as a record of the department's decision making.

1.1 Regulatory framework

In amending the licence, the department has considered and given due regard to its Regulatory Framework and relevant policy documents which are available at <https://dwer.wa.gov.au/regulatory-documents>.

1.2 Amendment summary

Licence L9208/2019/1 is held by Piper Preston Pty Ltd (Licence Holder) for the Lake Way Sulphate of Potash (SOP) Project (the Premises), located at Wiluna, Western Australia.

The Premises relates to the categories under Schedule 1 of the *Environmental Protection Regulations 1987* (EP Regulations) and assessed production/design capacities defined in existing Licence L9208/2019/1.

In July 2020, the Government announced a package of regulatory reforms to streamline approval processes and to aid economic recovery post COVID-19. With these reforms, the CEO implemented an administrative renewal process to fast-track the renewals for licences determined to be lower risk.

This work has reduced timeframes of assessments, however the CEO has determined to further streamline the process. Where identified as being appropriate to action, the department is extending the duration of licences that are due to expire up to 30 June 2026 (amend to extend).

This licence has been identified as a licence suitable to process as an administrative extension to the licence duration. The amendment is limited to extending the licence expiry date, with no reassessment of the existing risk profile at the premises.

2. Consultation

The Licence Holder was provided with the draft Amendment Report on 3 October 2025. On 6 October 2025 the Licence Holder waived the comment period.

3. Summary of amendments

Table 1 below provides a summary of the proposed amendments and will act as a record of implemented changes. All proposed changes have been incorporated into the Revised licence as part of the amendment process.

Table 1: Summary of licence amendments

Condition no.	Proposed amendments
Duration	Extended to 26/09/2031 to align with the existing Annual Fee date and date of issue (being 27/09/2019).
