1. Decision summary

Licence L9227/2019/1 is held by Total Green Recycling Pty Ltd (licence holder) for Total Green Recycling (the premises), located at 16-30 Sheffield Road Welshpool.

The Delegated Officer has determined to make amendments to Licence L9227/2019/1. The amendments are administrative in nature therefore they do not alter the risk profile of the Premises, providing that activities, emissions and receptors as stated in existing approvals remain unchanged.

This Amendment Report documents the amendments made pursuant to section 59 and 59(B) of the *Environmental Protection Act 1986* (EP Act).

2. Scope of assessment

2.1 Regulatory framework

In completing the assessment documented in this amendment report, the department has considered and given due regard to its Regulatory Framework and relevant policy documents which are available at <https://dwer.wa.gov.au/regulatory-documents>.

2.2 Application summary

On 5 March 2026, the licence holder submitted an application to the department to amend Licence L9227/2019/1 under section 59 and 59B of the *Environmental Protection Act 1986* (EP Act). The amendment being sought is to include 'Other Electronic and Electrical Equipment' in the waste acceptance table (Table 3) and waste processing table (Table 4). This waste type was approved during the 2025 amendment process however was left off the final licence. The addition of this waste category will not change the production capacity nor the risk profile of the premises.

2.3 Overview of premises

The licence holder operates a manual and mechanical e-waste processing facility, combining pre- and post-sorting by trained staff with separation, shredding, and optical sorting technologies. The system is designed to recover target commodities including ferrous and non-ferrous metals, printed circuit boards (PCBs), copper wire, and plastics. Hazardous components such as batteries and mercury lamps are removed in accordance with AS 5377:2022 - *Requirements for the treatment of end-of-life electrical and electronic equipment*.

E-waste is received primarily from local governments, commercial clients, and waste service providers. The premises has five sorting zones that operate independently:

- MRS sorting conveyor system;
- Manual pre-sorting stations;
- Flatscreen processing stations;
- CRT processing line; and
- Shredding and separation line

3. Consultation

Table 1 provides a summary of the consultation undertaken by the department.

Table 1: Consultation

Consultation method	Comments received	Department response
Licence holder provided with draft amendment (23/04/2026)	Comment period waived by the applicant on 23 April 2026, no comments received	N/A

4. Conclusion

Based on the assessment in this amendment report, the delegated officer has determined that a revised licence will be granted, subject to conditions commensurate with the determined controls and necessary for administration and reporting requirements.

4.1 Summary of amendments

Table 2 provides a summary of the proposed amendments and will act as a record of implemented changes. All proposed changes have been incorporated into the Revised Licence as part of the amendment process.

Table 2: Summary of licence amendment

Revised licence condition	Proposed amendments
Condition 6, Table 3	'Other Electronic and Electrical Equipment' added to waste acceptance table.
Condition 8, Table 4	'Other Electronic and Electrical Equipment' added to waste processing table.
