---

<b>Licence Number</b>	L9385/2023/1
<b>Licence Holder</b>	Mario Michele Giacci
<b>File Number</b>	APP-0030820
<b>Premises</b>	Springhill Road Sand Quarry 10 Springhill Road Parkfield WA 6233  Legal description – Part of Lot 2 on Deposited Plan 36635  As defined by the Premises maps attached to the Revised Licence
<b>Date of Report</b>	3 October 2025
<b>Decision</b>	Revised licence granted

## 1. Decision summary

The Delegated Officer has determined to make amendments to Licence L9385/2023/1. The amendments are administrative in nature therefore they do not alter the risk profile of the Premises, providing that activities, emissions and receptors as stated in existing approvals remain unchanged.

This Amendment Report documents the amendments made pursuant to section 59 and 59(B) of the *Environmental Protection Act 1986* (EP Act).

The Decision Report for the Existing Licence will remain on the department's website for future reference and will act as a record of the department's decision making.

### 1.1 Regulatory framework

In amending the licence, the department has considered and given due regard to its Regulatory Framework and relevant policy documents which are available at <https://dwer.wa.gov.au/regulatory-documents>.

### 1.2 Amendment summary

Licence L9385/2023/1 is held by Mario Michele Giacci (Licence Holder) for the Springhill Road Sand Quarry (the Premises), located at 10 Springhill Road, Parkfield WA 6233.

The Premises relates to the category and the assessed design capacity under Schedule 1 of the *Environmental Protection Regulations 1987* (EP Regulations) which are defined in existing Licence L9385/2023/1.

In July 2020, the Government announced a package of regulatory reforms to streamline approval processes and to aid economic recovery post COVID-19. With these reforms, the CEO implemented an administrative renewal process to fast-track the renewals for licences determined to be lower risk.

This work has reduced timeframes of assessments, however the CEO proposed to streamline the process further. Where identified as being appropriate to action, the department is extending the duration of licences that are due to expire up to 30 June 2026 (amend to extend). This licence has been identified as a licence suitable to process as an administrative extension to the licence duration.

On 28 August 2025, the department initiated an amendment to Licence L9385/2023/1. The amendment is limited to extending licence expiry date. No reassessment of risk has been undertaken at this time.

## 2. Consultation

The Licence Holder was provided with the draft Amendment Report on 25 September 2025 and on the same day the Licence Holder waived the comment period.

## 3. Summary of amendments

Table 1 below provides a summary of the proposed amendments and will act as a record of implemented changes. All proposed changes have been incorporated into the Revised licence as part of the amendment process.
