

Annual Audit Compliance Report Form

Environmental Protection Act 1986, Part V

Once completed, please submit this form either via email to info-der@dwer.wa.gov.au, or to the below postal address:

Department of Water and Environmental Regulation
Locked Bag 33 Cloisters Square
PERTH WA 6850

Section A – Licence Details			
Licence number:	L9254/2020/1	Licence file number:	
Licence holder:	Westpork Pty Ltd		
Trading as:	Westpork Kojonup		
ACN:	009148789		
Registered address:	Lot 10 Crapella Road Boscabel WA 6394		
Reporting period:	1 / 07 / 20 to 30 / 06 / 21		

Section B – Statement of Compliance with Licence Conditions
Did you comply with all of your licence conditions during the reporting period? (please tick the appropriate box)
<input type="checkbox"/> Yes – please complete: <ul style="list-style-type: none">• section C;• section D if required; and• sign the declaration in Section F.
<input checked="" type="checkbox"/> No – please complete: <ul style="list-style-type: none">• section C;• section D if required;• section E; and• sign the declaration at Section F.

Section C – Statement of Actual Production	
Provide the actual production quantity for this reporting period. Supporting documentation is to be attached.	
Prescribed Premises Category	Actual Production Quantity
Intensive Piggery	27766 SPU

Section D – Statement of Actual Part 2 Waste Discharge Quantity	
Provide the actual Part 2 waste discharge quantity for this reporting period. Supporting documentation is to be attached.	
Prescribed Premises Category	Actual Part 2 Waste Discharge Quantity

Section E – Details of Non-Compliance with Licence Condition			
Please use a separate page for each condition with which the licence holder was non-compliant at a time during the reporting period.			
Condition no:	1 of L9254/2020/1	Date(s) of non-compliance:	13/04/2021
Details of non-compliance:			
<p>All weaner and finisher sheds listed in Schedule 2, Table 7 were not cleaned weekly.</p> <p>Condition 1 requires the licence holder to maintain and operate site infrastructure and equipment listed in Schedule 2 Table 7 and located at the corresponding infrastructure location in accordance with the corresponding operational requirement set out in Schedule 2 Table 7.</p> <p>Table 7 states that the 7 conventional sheds and 2 additional sheds (to be constructed under works approval W5865/2015/1) are to be cleaned weekly.</p> <p>The weaner and finisher sheds are cleaned weekly on a rotational basis. This means that each weaner shed is cleaned every 6 weeks and each finisher shed is cleaned every 11 – 12 weeks.</p> <p>Each shed takes 3 days to clean and 1 day to dry before the pigs can be rehoused in the shed. The pigs are housed temporarily in the lane and alley ways whilst the sheds are cleaned, these lane and alley ways are cleaned weekly. It is not practicable to clean all sheds each week as there is not enough vacant lane and alley way space on the premises to house all pigs temporarily whilst each shed is cleaned weekly. In addition, cleaning each shed weekly would increase water usage by a factor of 8. The waste water infrastructure has not been designed to accommodate this volume of waste water.</p>			
What was the actual (or suspected) environmental impact of the non-compliance?			
<p>NOTE – please attach maps or diagrams to provide insight into the precise location of where the non-compliance took place.</p>			
None.			
Cause (or suspected cause) of non-compliance:			
Westpork interpreted Condition 1, Schedule 2, Table 7 as meaning that cleaning of the weaner and finisher sheds would occur weekly, not that every weaner and every finisher would be cleaned weekly.			
Action taken to mitigate any adverse effects of non-compliance and prevent recurrence of the non-compliance:			

Section E – Details of Non-Compliance with Licence Condition

Westpork has engaged Aurora Environmental to prepare a licence amendment application to amend Condition 1, Schedule 2, Table 7 to clearly state that:

1 x weaner and 1 x finisher shed will be cleaned on a weekly basis with each weaner shed cleaned every 6 weeks on rotation and each finisher shed cleaned every 11-12 weeks on rotation.

Was this non-compliance previously reported to DWER?

Yes, and

Reported to DWER verbally

Date: 13/04/2021 - Site inspection date

Reported to DWER in writing

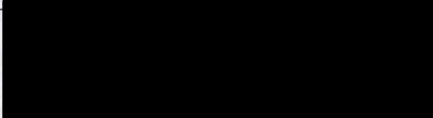

Date: 9/08/2021 - Inspection Report response

Section E – Details of Non-Compliance with Licence Condition			
Please use a separate page for each condition with which the licence holder was non-compliant at a time during the reporting period.			
Condition no:	2 of L9254/2020/1	Date(s) of non-compliance:	13/04/2021
Details of non-compliance:			
<p>All wastewaters from piggery operations were not directed to the wastewater treatment system.</p> <p>Condition 2 states that the licence holder must ensure that all wastewaters from piggery operations including wash down water, by-products wastewater and contaminated run-off are directed to the wastewater treatment system.</p> <p>On 13 April 2021 during a site inspection, DWER inspectors observed manure waste and leachate discharging from the drains outside the shelters to a compacted gravel driveway area.</p>			
What was the actual (or suspected) environmental impact of the non-compliance?			
NOTE – please attach maps or diagrams to provide insight into the precise location of where the non-compliance took place.			
Low level contamination of compacted gravel driveway.			
Cause (or suspected cause) of non-compliance:			
Drain capacity not large enough to accommodate the volume of waste water coming from the shelter at certain points.			
Action taken to mitigate any adverse effects of non-compliance and prevent recurrence of the non-compliance:			
<p>Modification to drain is required to increase its capacity. A focused effort on cleaning the drains until the required modifications can be completed.</p> <p>Modifications are scheduled to be completed by the end of the year.</p>			
Was this non-compliance previously reported to DWER?			
<input checked="" type="checkbox"/> Yes, and			
<input checked="" type="checkbox"/> Reported to DWER verbally		Date: 13/04/2021 - Site inspection date
