

## Fact sheet

### Waste levy exemption 5(1)(e) - Waste resulting from storm, fire, flood or other natural disaster

#### Overview

The *Waste Avoidance and Resource Recovery Levy Act 2007* (WARR Levy Act) and the *Waste Avoidance and Resource Recovery Levy Regulations 2008* (WARR Levy Regulations) provide for a levy to be paid for waste (waste levy) received at licensed landfills in the metropolitan region and waste collected within the Perth metropolitan region that is received at licensed landfills outside of the metropolitan region.

Regulation 5 of the WARR Levy Regulations outlines categories of exemptions where the waste levy will not apply to waste received at licensed landfills if an exemption is granted.

Regulation 5(1)(e) allows licensees of landfills to claim, by application, an exemption for waste resulting from storm, fire, flood or other natural disasters that cannot be reused, reprocessed, recycled or used in energy recovery.

#### Waste generated as a result of natural disasters

This exemption has two criteria:

1. the waste resulted from storm, fire, flood or other natural disaster
2. the waste cannot reasonably be reused, reprocessed, recycled or used in energy recovery.

To apply for this exemption, the licensee must complete and submit to the Department of Water and Environmental Regulation (the department) the approved [application form](#) and provide the information referred to in that form.

#### Waste from a storm, fire, flood or other natural disaster

Waste under this exemption must have been generated as a direct result of a storm, fire, flood or other natural disaster.

The licensee is required to submit supporting evidence with their exemption application to substantiate their claim that the waste originated as a result of a storm, fire, flood or other natural disaster. This may include:

- date, time and location of the natural disaster
- photos
- copies of emergency services reports
- meteorological reports.

## **Waste cannot reasonably be reused, reprocessed, recycled or used in energy recovery**

To be eligible for this exemption, the waste cannot be suitable for reuse, reprocessing, recycling or use in energy recovery. The licensee must include evidence to substantiate that the waste must be landfilled.

## **What if the waste can be reused, reprocessed, recycled or used in energy recovery?**

If you have waste from a natural disaster which can be reused, recycled, reprocessed or used in energy recovery, it is not eligible for this exemption; however, if this waste is not disposed of to landfill then the waste levy is not required to be paid on the waste.

## **Are there any restrictions on the type or amount of waste allowed under this exemption?**

No, the WARR Levy Regulations do not apply any restrictions on the amount of waste that can be exempted under regulation 5(1)(e). In the application the licensee should state the total amount of waste that the exemption relates to and provide information to substantiate the amount claimed.

## **When should I apply for this exemption?**

The department recommends applications for exemptions under 5(1)(e) be submitted prior to, or as soon as practicable after, the acceptance of the waste to ensure that the material will not be subject to the levy. However retrospective applications will be considered.

## **How do I apply for this exemption?**

The licensee of a landfill can apply to the department for an exemption under regulation 5(1)(e) by completing the approved [application form](#) and submitting to [wastelevy@dwer.wa.gov.au](mailto:wastelevy@dwer.wa.gov.au).

## **How is an exemption application assessed?**

The Chief Executive Officer (CEO) of the department, or their delegate, will assess the information provided in the approved form to determine if it meets the requirements of the exemption under the WARR Levy Regulations. Following this assessment, the CEO will grant or refuse an exemption.

## **Can I charge a fee to accept this waste?**

The department generally places a condition on exemptions granted under regulation 5(1)(e) requiring that the waste holder is not charged the levy component of any waste acceptance fees for the exempted waste. However, landfilling fees can be charged.

## **Conditions of exemptions**

If an exemption application is approved, the licensee will be issued with an exemption notice. The exemption notice may be subject to conditions or limited to

circumstances set out in the notice. Regulation 5(5A) of the WARR Levy Regulations specifies examples of conditions that may be imposed.

### **What happens if a condition of an exemption is breached?**

Under regulation 5(6) of the WARR Levy Regulations, the exemption ceases to have effect if any condition of an exemption notice is breached.

### **Will I be notified of the outcome of my application?**

If the CEO decides to approve an exemption application, the licensee will receive a written notice of this decision.

If the CEO intends to refuse an exemption application, the licensee will be provided with a draft decision document outlining the reasons why the CEO intends to refuse the application. The licensee will generally have 21 business days to respond to the draft decision document before the CEO makes a final decision.

While the time required to assess an exemption application varies, generally a decision will be made within 30 business days following the receipt of a complete application.

### **Can I appeal an exemption decision?**

If the CEO refuses an exemption application or imposes conditions or limitations that the licensee does not agree with, the licensee may apply to the State Administrative Tribunal (Tribunal) for a review of the decision.

An application for review of the CEO's decision is made to the Tribunal directly. Information about applying to the Tribunal is available [online](#).

### **Do I have to pay the levy while my exemption application is being assessed?**

A licensee must pay the levy by the due date, including any levy payable for waste that is the subject of a pending exemption application.

The due date is 28 days after the end of the relevant return period. If payment is not received in full by the due date, a penalty is payable on the overdue amount calculated at a rate of 20 per cent per annum.

If the exemption is granted retrospectively, the department will refund the licensee the amount of levy overpaid and any penalty paid on that amount. Alternatively, the department may credit the licensee with these amounts, if the licensee so elects.

It is recommended that exemption applications be submitted in accordance with the submission dates outlined in the [Guideline – Waste levy exemptions](#).

### **How long does an exemption last?**

All exemption notices will specify the period for which the exemption is valid. The validity period specified in the exemption notice will vary depending upon the circumstances of the exemption.

An exemption ceases to have effect at the conclusion of the validity period or immediately if an exemption condition is breached.

## **Calculating the amount of exempt waste for each return period**

Following the issue of an exemption notice, licensees will need to calculate the amount of exempt waste for each return period.

### *Category 63 (Class I) landfills*

For licensed landfills in the metropolitan region, the volume of exempt waste must be estimated in the [Approved manner for estimating the volume or weight of waste received at and disposed of to landfills](#) (the approved manner), in accordance with regulation 10(8) of the WARR Levy Regulations.

For licensed landfills outside the metropolitan area that have received waste collected within the metropolitan area, the volume of exempt waste must be estimated in the approved manner in accordance with regulation 12A(2)(b).

### *Category 64 (Class II and III) and 65 (Class IV) landfills*

Under regulation 8, the weight of exempt waste received must be calculated using the landfill's weighbridge, unless the landfill does not have a weighbridge or the licensee has obtained an exemption from the requirement to weigh waste on a weighbridge under regulation 5(2).

If the landfill does not have a weighbridge, or the licensee has been granted an exemption from the requirement to weigh waste on a weighbridge, the weight of exempt waste must be estimated in the approved manner in accordance with regulation 9(2A).

### **More information**

Please contact the department on 6364 6963 for further advice on waste levy exemptions or related matters.

This document is available in alternative formats and other languages on request.

Effective February 2021.
