

Waste Data Online

Quick guide: Waste Data Online pages versus Census (MS Excel)

Waste Data Online	Census ¹
Local government contact details	
<p>The contact details are completed when registering the local government as a liable person. With the advent of Waste Data Online and the new reporting framework, a reporter and an approver are required to be registered from the local government. The approver must be the CEO unless the CEO advises the Waste Data team in writing delegating their approver responsibility to another officer. The approver and reporter can be the same person.</p>	<p>Section A – This was where the contact details were entered previously.</p>
Domestic services	
<p>This page covers essentially everything that was asked for in Section B of the Census.</p>	<p>With the Census, the services to households (plus PP&SE) were covered in Section B, with each type of service split up into a different Excel worksheet i.e.</p> <p>B1&2 = Kerbside B3 = Vergeside B4 = Drop-off B5 = Public Place and Special Event (PP&SE)</p>
Domestic recycling	
<p>The information required on this page is the same as was required for Section C of the Census.</p>	<p>Section C – Recyclables</p>
Commercial services	
<p>The information required on this page is the same as was required for Section F1 of the Census.</p>	<p>F1 – Commercial Services</p>
Costs and charges	
<p>In Waste Data Online, the costs and charges for domestic and commercial services are both on the same page.</p>	<p>E1 – Annual cost of collection / processing / disposal of domestic material (\$) E2 – Charges for domestic services F2 – Commercial services – costs and charges</p>
Littering and illegal Dumping	
<p>Asks for similar information to what was in the Census.</p>	<p>H – Littering</p>
Other information	
<p>Some of the sections that were included in the Census are not included in Waste Data Online.</p>	<p>G – General I – LG Waste</p>

¹ Annual Census of Western Australian local government waste and recycling services (MS Excel version)
