

# Works Approval

| Prescribed premises category description<br>(Schedule 1, <i>Environmental Protection Regulations 1987</i> ) |                                | Assessed design capacity |
|---|--------------------------------|--------------------------|
| As defined by the coordinates in Schedule   |                                | in Schedule 1            |
|   | NORSEMAN WA 6443               |                          |
|   | Denison Drive                  |                          |
| Premises details  | Part of Crown Reserve 3476     |                          |
|   | Norseman Liquid Waste Facility |                          |
| Date of issue   | 14/09/2020                     |                          |
| Duration  | 14/09/2020 to 13/09/202        | 5                        |
| DWER file number  | DER2020/000267                 |                          |
|   | NORSEMAN WA 6443               |                          |
| Registered business address   | 82-92 Prinsep Street           |                          |
| ACN   | NA                             |                          |
| Works approval holder   | Shire of Dundas                |                          |
| Works approval number   | W6419/2020/1                   |                          |
|   |                                |                          |

| (Schedule 1, Environmental Protection Regulations 1987)   | Assessed design capacity     |
|---|------------------------------|
| Category 61: Liquid waste facility: premises on which liquid waste produced on other premises (other than sewerage waste) is stored, reprocessed, treated or irrigated. | 300 tonnes per annual period |

This works approval is granted to the works approval holder, subject to the attached conditions, on 14 September 2020, by:

Steve Checker MANAGER WASTE INDUSTRIES REGULATORY SERVICES an officer delegated under section 20 of the *Environmental Protection Act 1986* (WA)

## Works approval history

| Date       | Reference number | Summary of changes      |
|------------|------------------|-------------------------|
| 10/09/2020 | W6419/2020/1     | Works approval granted. |

### Interpretation

In this works approval:

- (a) the words 'including', 'includes' and 'include' in conditions mean "including but not limited to", and similar, as appropriate;
- (b) where any word or phrase is given a defined meaning, any other part of speech or other grammatical form of that word or phrase has a corresponding meaning;
- (c) where tables are used in a condition, each row in a table constitutes a separate condition;
- (d) any reference to an Australian or other standard, guideline, or code of practice in this works approval:
  - (i) if dated, refers to that particular version; and
  - (ii) if not dated, refers to the latest version and therefore may be subject to change over time;
- (e) unless specified otherwise, any reference to a section of an Act refers to that section of the EP Act; and
- (f) unless specified otherwise, all definitions are in accordance with the EP Act.

**NOTE:** This works approval requires specific conditions to be met but does not provide any implied authorisation for other emissions, discharges, or activities not specified in this works approval.

### Works approval conditions

The works approval holder must ensure that the following conditions are complied with:

#### Infrastructure and equipment

- **1.** The works approval holder must:
  - (a) construct and/or install the infrastructure and/or equipment;
  - (b) in accordance with the corresponding design and construction / installation requirements; and
  - (c) at the corresponding infrastructure location; and
  - (d) within the corresponding timeframe,
  - as set out in Table 1.

#### Table 1: Design and construction / installation requirements

|    | Infrastructure         | Design and construction / installation requirements   | Infrastructure location                     |
|----|------------------------|---|---|
| 1. | Evaporative drying bed | <ul> <li>To be of impervious concrete<br/>construction and free of leaks and<br/>defects<sup>1</sup>;</li> </ul>  | As shown in schedule 3 – Design<br>drawings |
|    |                        | • To be 32m x 32m in dimension <sup>1</sup> ;   |   |
|    |                        | <ul> <li>Incorporates a concrete bund wall<br/>of at least 300 mm to ensure all<br/>liquid waste is contained within the<br/>drying bed;</li> </ul>   |   |
|    |                        | <ul> <li>All pipelines will be HDPE with<br/>welded joints;</li> </ul>  |   |
|    |                        | <ul> <li>Capacity to store a 24-hour<br/>duration, 1 in 20 year ARI critical<br/>rainfall event without overflow; and</li> </ul>  |   |
|    |                        | <ul> <li>Designed so that a minimum top of<br/>embankment freeboard of 500 mm<br/>is able to be maintained during<br/>operation.</li> </ul>   |   |
| 2. | Filter bed             | <ul> <li>To be of impervious concrete<br/>construction and free of leaks and<br/>defects;</li> </ul>  | As shown in schedule 3 – Design<br>drawings |
|    |                        | • To be 8m x 5m in dimension <sup>1</sup> ;   |   |
|    |                        | <ul> <li>Must have sufficient fall to<br/>discharge the separated liquids into<br/>the adjacent existing liquid waste<br/>pond where anaerobic and aerobic<br/>action will commence; and</li> </ul> |   |
|    |                        | <ul> <li>All pipelines will be HDPE with<br/>welded joints;</li> </ul>  |   |
| 3. | Deep Sump              | <ul> <li>To be of impervious concrete<br/>construction and free of leaks and<br/>defects;</li> </ul>  | As shown in schedule 3 – Design<br>drawings |
|    |                        | <ul> <li>The sump must be located at the<br/>extremity of the drying bed to allow<br/>for pumping as and when required;</li> </ul>  |   |

| Infrastructure | Design and construction /<br>installation requirements   | Infrastructure location |
|----------------|--|-------------------------|
|                | <ul> <li>To be approximately 100mm x<br/>1000mm x 600mm in dimension<sup>1</sup>;</li> </ul>                                     |                         |
|                | <ul> <li>Capacity to store a 24-hour<br/>duration, 1 in 20 year ARI critical<br/>rainfall event without overflow; and</li> </ul> |                         |
|                | <ul> <li>All pipelines will be HDPE with<br/>welded joints.</li> </ul>   |                         |

Note 1: Variation in dimension is permitted provided engineer certification of equivalent or greater performance is provided with the report provided with Condtion 2

#### **Compliance reporting**

- 2. The Works Approval Holder must within 30 calendar days of all items of infrastructure or equipment required by Condition 1 being constructed and/or installed:
  - (a) undertake an audit of their compliance with the requirements of Condition 1; and
  - (b) prepare and submit to the CEO an Environmental Compliance Report on that compliance.
- **3.** The Environmental Compliance Report required by Condition 2, must include as a minimum the following:
  - (a) certification by a suitably qualified construction, civil or structural engineer that the items of infrastructure or component(s) thereof, as specified in Condition 1, have been constructed in accordance with the relevant requirements specified in Condition 1;
  - (b) as constructed plans and a detailed site plan for each item of infrastructure or component of infrastructure specified in Condition 1; and
  - (c) be signed by a person authorised to represent the Works Approval Holder and contains the printed name and position of that person.

#### **Records and reporting (general)**

- **4.** The works approval holder must record the following information in relation to complaints received by the works approval holder (whether received directly from a complainant or forwarded to them by the Department or another party) about any alleged emissions from the premises:
  - (a) the name and contact details of the complainant, (if provided);
  - (b) the time and date of the complaint;
  - (c) the complete details of the complaint and any other concerns or other issues raised; and
  - (d) the complete details and dates of any action taken by the works approval holder to investigate or respond to any complaint.
- **5.** The works approval holder must maintain accurate and auditable books including the following records, information, reports, and data required by this works approval:
  - (a) the works conducted in accordance with condition 1;
  - (b) any maintenance of infrastructure that is performed in the course of complying with condition 1;

- (c) complaints received under condition 4.
- **6.** The books specified under condition 5 must:
  - (a) be legible;
  - (b) if amended, be amended in such a way that the original version(s) and any subsequent amendments remain legible and are capable of retrieval;
  - (c) be retained by the works approval holder for the duration of the works approval; and
  - (d) be available to be produced to an inspector or the CEO as required.

# **Definitions**

In this works approval, the terms in Table 1 have the meanings defined.

#### Table 1: Definitions

| Term  | Definition   |  |
|---|--|--|
| books   | has the same meaning given to that term under the EP Act.  |  |
| CEO   | means Chief Executive Officer.<br>CEO for the purposes of notification means:<br>Director General<br>Department administering the <i>Environmental Protection Act</i><br>1986<br>Locked Bag 10<br>Joondalup DC WA 6919   |  |
|   | info@dwer.wa.gov.au  |  |
| critical containment<br>infrastructure        | means the items of infrastructure listed in condition 1.   |  |
| Critical Containment<br>Infrastructure Report | means a report to satisfy the CEO that works of critical containment infrastructure have been constructed in accordance with the works approval.   |  |
| Department                                    | means the department established under section 35 of the <i>Public Sector Management Act 1994</i> and designated as responsible for the administration of Part V Division 3 of the EP Act.   |  |
| discharge                                     | has the same meaning given to that term under the EP Act.  |  |
| emission                                      | has the same meaning given to that term under the EP Act.  |  |
| environmental<br>commissioning                | means the sequence of activities to be undertaken to test<br>equipment integrity and operation, or to determine the<br>environmental performance, of equipment and infrastructure to<br>establish or test a steady state operation and confirm design<br>specifications. |  |
| Environmental<br>Commissioning<br>Report      | means a report on any commissioning activities that have taken<br>place and a demonstration that they have concluded, with focus<br>on emissions and discharges, waste containment, and other<br>environmental factors.  |  |
| Environmental<br>Compliance Report            | means a report to satisfy the CEO that the conditioned infrastructure and/or equipment has been constructed and/or installed in accordance with the works approval.  |  |
| EP Act  | Environmental Protection Act 1986 (WA).  |  |
| EP Regulations                                | Environmental Protection Regulations 1987 (WA).  |  |

| Term                       | Definition  |
|----------------------------|---|
| premises                   | the premises to which this licence applies, as specified at the front of this licence and as shown on the premises map (Figure 1) in Schedule 1 to this works approval.         |
| prescribed premises        | has the same meaning given to that term under the EP Act.   |
| time limited<br>operations | refers to the operation of the infrastructure and equipment<br>identified under this works approval that is authorised for that<br>purpose, subject to the relevant conditions. |
| waste                      | has the same meaning given to that term under the EP Act.   |
| works approval             | refers to this document, which evidences the grant of the works<br>approval by the CEO under section 54 of the EP Act, subject to<br>the conditions.                            |
| works approval<br>holder   | refers to the occupier of the premises being the person to whom<br>this works approval has been granted, as specified at the front of<br>this works approval.                   |

#### END OF CONDITIONS

# Schedule 1: Maps

### **Premises map**

The boundary of the prescribed premises is shown in the map below (Figure 1).
