Category 35: Asphalt Manufacturing	200 tonnes of asphalt per hour

This works approval is granted to the works approval holder, subject to the attached conditions, on 8 January 2021 by:

Abbie Crawford
**A/MANAGER, WASTE INDUSTRIES
REGULATORY SERVICES**

an officer delegated under section 20 of the *Environmental Protection Act 1986* (WA)

Interpretation

In this works approval:

- (a) the words 'including', 'includes' and 'include' in conditions mean "including but not limited to", and similar, as appropriate;
- (b) where any word or phrase is given a defined meaning, any other part of speech or other grammatical form of that word or phrase has a corresponding meaning;
- (c) where tables are used in a condition, each row in a table constitutes a separate condition;
- (d) any reference to an Australian or other standard, guideline, or code of practice in this works approval:
 - (i) if dated, refers to that particular version; and
 - (ii) if not dated, refers to the latest version and therefore may be subject to change over time;
- (e) unless specified otherwise, any reference to a section of an Act refers to that section of the EP Act; and
- (f) unless specified otherwise, all definitions are in accordance with the EP Act.

NOTE: This works approval requires specific conditions to be met but does not provide any implied authorisation for other emissions, discharges, or activities not specified in this works approval.

Works approval conditions

The works approval holder must ensure that the following conditions are complied with:

Equipment

1. The works approval holder must:
 - (a) install and operate the equipment; and
 - (b) in accordance with the corresponding installation requirements;as set out in Table 1.

Table 1: Design, installation and operational requirements

	Equipment	Design, installation and operational requirements
1.	Asphalt manufacturing plant	Ciber iNOVA 2000 or equivalent asphalt plant, drier fuelled by diesel. Waste gasses to be treated by a baghouse filter prior to discharge to the environment.

Authorised discharge point for emissions

2. The works approval holder must ensure that the emissions specified in Table 2, are discharged only from the corresponding discharge point and only at the corresponding discharge point location.

Table 2: Authorised discharge points

Emission	Discharge point
Waste gasses from the asphalt manufacturing plant	Stack on the asphalt manufacturing plant

Emission limits

3. The works approval holder must ensure that emissions from the discharge point listed in Table 3 for the corresponding parameter do not exceed the corresponding limit.

Table 3: Emission and discharge limits

Discharge point	Parameter	Limit
Asphalt manufacturing plant stack	Particulate matter (PM)	50 mg/m ³

Mobilisation and demobilisation

4. The works approval holder must mobilise the asphalt plant to the premises within four weeks from the date of issue of this works approval.
5. The works approval holder must demobilise the asphalt plant from the premises prior to the expiry date of this works approval.

Records and reporting

6. The works approval holder must record the following information in relation to complaints received by the works approval holder (whether received directly from a complainant or forwarded to them by the Department or another party) about any alleged emissions from the premises:
 - (a) the name and contact details of the complainant, (if provided);
 - (b) the time and date of the complaint;
 - (c) the complete details of the complaint and any other concerns or other issues raised; and
 - (d) the complete details and dates of any action taken by the works approval holder to investigate or respond to any complaint.
7. The works approval holder must maintain accurate and auditable books including the following records, information, reports, and data required by this works approval:
 - (a) the works conducted in accordance with condition 1;
 - (b) any maintenance of infrastructure that is performed in the course of complying with condition 1; and
 - (c) complaints received under condition 6.
8. The books specified under condition 7 must:
 - (a) be legible;
 - (b) if amended, be amended in such a way that the original version(s) and any subsequent amendments remain legible and are capable of retrieval;
 - (c) be retained by the works approval holder for the duration of the works approval; and
 - (d) be available to be produced to an inspector or the CEO as required.
9. The works approval holder must prior to the expiry of this works approval:
 - (a) undertake an audit of their compliance against the requirements of the conditions of this works approval; and
 - (b) prepare and submit to the CEO an audit report on that compliance.

Definitions

In this works approval, the terms in Table 4 have the meanings defined.
